**Cather Studies, Volume 10** Anne L Kaufman, Richard H. Millington, 2015-08 Willa Cather and the Nineteenth Century explores with textual specificity and historical alertness the question of how the cultures of the nineteenth century the cultures that shaped Willa Cather's childhood animated her education supplied her artistic models generated her inordinate ambitions and gave embodiment to many of her deeply held values are addressed in her fiction In two related sets of essays seven contributors track within Cather's life or writing the particular cultural formations emotions and conflicts of value she absorbed from the atmosphere of her distinct historical moment their ten colleagues offer a compelling set of case studies that articulate the manifold ways that Cather learned from built upon or resisted models provided by particular nineteenth century writers works or artistic genres Taken together with its Cather Studies predecessor Willa Cather and Modern Cultures this volume reveals Cather as explorer and interpreter sufferer and master of the transition from a Victorian to a Modernist America

**Silent Film and the Formations of U.S. Literary Culture** Sarah Gleeson-White, 2024-05-14 Silent Film and the Formations of U.S. Literary Culture Literature in Motion argues that the emergence of motion pictures constituted a defining moment in U.S. literary history Author Sarah Gleeson White discovers what happened to literary culture both popular and higher brow when inserted into the spectacular world of motion pictures during the early decades of the twentieth century How did literary culture respond to and how was it altered by the development of motion pictures literature's exemplar and rival in narrative realism and enthrallment Gleeson White draws on extensive archival film and literary materials and uncovers a range of collaborative cross media expressive and industrial practices to reveal the manifold ways in which early twentieth century literary culture sought both to harness and temper the reach of motion pictures

**American Women Writers of the 19th Century** Heidi M. Hanrahan, 2025-04-03 The nineteenth century was a period of prolific literary production from women writers including figures such as Louisa May Alcott, Harriet Jacobs, and Zitkala who played pivotal roles in American literary history Despite facing societal forces aimed at silencing them women writers found ways to assert their voices and contribute to the intellectual and political debates of the era Their works contribute to conversations on a wide range of topics including art, gender, social reform, slavery, abolition, economic and social inequality, national expansion, Native American dispossession, and the changing identity of the nation Both retrospective and forward-looking, their written works found diverse audiences of men, women, and children This book functions as a comprehensive guide to understanding the breadth of nineteenth century women's writing exploring not only the writers and their texts but also the literary periods, genres, and key cultural, historical, and social movements that shaped their works By examining these authors' impact on American literary traditions and their role in cultural discourse, it highlights the lasting relevance of their work in both historical and contemporary contexts

**American Literary History and the Turn toward Modernity** Melanie V. Dawson, Meredith L. Goldsmith, 2018-08-10 Approaching the period of 1880-1930 in American

literature as one in which the processes of rethinking the past were as prevalent as wholly new works of art this collection treats the century s long turn as a site that overtly staged the tension among conflicting sets of values those of past present and the imagined future As the authors of this collection demonstrate the literature from the century s turn is irreducible to the characteristics either of the nineteenth or the twentieth centuries rather it is literature of dual practices and multiple values that embodies elastic qualities of historical plurality a true literature in transition

*Pastoral Cosmopolitanism in Edith Wharton's Fiction* Margarida Cadima,2023-07-11 American novelist Edith Wharton 1862 1937 is best known today for her tales of the city and the experiences of patrician New Yorkers in the Gilded Age This book pushes against the grain of critical orthodoxy by prioritizing other species of spaces in Wharton s work For example how do Wharton s narratives represent the organic profusion of external nature Does the current scholarly

fascination with the environmental humanities reveal previously unexamined or overlooked facets of Wharton s craft I propose that what is most striking about her narrative practice is how she utilizes adapts and translates pastoral tropes conventions and concerns to twentieth century American actualities It is no accident that Wharton portrays characters returning to or exploring various natural localities such as private gardens public parks chic mountain resorts monumental ruins or country estate follies Such encounters and adventures prompt us to imagine new relationships with various

geographies and the lifeforms that can be found there The book addresses a knowledge gap in Wharton and the environmental humanities especially recent debates in ecocriticism The excavation of Wharton s words and the background of her narratives with an eye to offering an ecocritical reading of her work is what the book focuses on
