## Causa Interior Internal Cause:

**Pneumatologia Or, A Discourse Concerning the Holy Spirit Volume II** John Owen, \_\_\_\_\_ OR, A  
**DISCOURSE CONCERNING THE HOLY SPIRIT** John Flavel, 2016-07-27 A critical work into the working and theology of the most mysterious person of the holy Trinity the Holy Spirit Many times Christians recognize but do not focus on the Holy Spirit even though He is the most active person of the Godhood in our world today This work goes to correct that and delves into Scripture to reveal to us how he works and what he is like so that we can properly revere him as Almighty God

**Pneumatologia** John Owen, 1791    **Verb Classes and Aspect** Elisa Barrajón López, José Luis Cifuentes  
Honrubia, Susana Rodríguez Rosique, 2015-11-15 This volume offers a variety of perspectives on two of the main topics situated at the crossroads between lexical semantics and syntax namely a aspect and its correspondence with syntactic structure and b the delimitation of syntactic structures from verb classes Almost from Aristotle's Metaphysics it has been assumed that verbs invoke a mental image about the way in which eventualities are distributed over time When it comes to determining time schemata the lexical class to which the verb belongs represents a first step Speaking about verb classes does not exclusively mean a semantic similarity rather verb classes exhibit a bundle of common features and thus show a set of recursive behavior patterns Beyond the meaning of the verb both semantic and syntactic factors together with pragmatic ones play a decisive role when establishing the aspectual classification of an eventuality The contributions collected in this book approach the aforementioned lines either analyzing the relationships between aspect and syntactic structure or traversing the path from a verb class to its syntactic manifestation Some of them stress diachronic filiations while others include processes of word formation in the debate some of them focus on certain classes such as movement verbs or psychological verbs while others examine specific constructions A number of chapters also discuss relevant theoretical issues concerning the analysis of aspect In sum the kaleidoscopic view provided by this book allows the reader to delve deeper into one of the most controversial as well as exciting topics within current linguistics

**The Works of John Owen** John Owen, 1826    **Cervantes and the Early Modern Mind** Isabel Jaén, Julien Jacques Simon, 2021-08-30 This book explores the work of Cervantes in relation to the ideas about the mind that circulated in early modern Europe and were propelled by thinkers such as Juan Luis Vives Juan Huarte de San Juan Oliva Sabuco Andrés Laguna Andrés Velázquez Marsilio Ficino and González Pereira The editors bring together humanists and scientists literary scholars and doctors whose interdisciplinary research integrates diverse types of sources philosophical and medical treatises natural histories rhetoric manuals pharmacopoeias etc alongside Cervantes's works to examine themes and areas including emotion human development animal vs human consciousness pathologies of the mind and mind altering substances Their chapters trace the cognitive themes and points of inquiry that Cervantes shares with other early modern thinkers showing how he both echoes and contributes to early modern views of the mind
