Tools for financial planning and mindset shifts pave the way for a sabbatical or exit that isn't just an escape but a deliberate pause to rediscover purpose and build resilience. This book also guides you on how to create a life you actually want to live, one where work fits your priorities rather than consuming them. [Thrive After 40: Your Essential Guide to Lifelong Fitness and Well-being](#) Jeff Oliveira, 2025-10-05

Turning 40 often marks a significant milestone, a moment for reflection on the past and anticipation of the future. For many, it also brings a heightened awareness of health and well-being. The body begins to signal changes: a slight dip in energy, a new ache, or perhaps a slower recovery from physical exertion. These are not signs of inevitable decline but rather invitations to embrace a new phase of proactive health management.

Disability as Diversity Lisa M. Meeks, Leslie Neal-Boylan, 2020-06-17

Administrators and faculty in medical nursing and health science programs are witnessing a substantial increase in the number of students with disabilities entering their programs. Concurrently, the benefits of diversity in healthcare are becoming increasingly apparent and important. Provider-patient concordance is a known mechanism for reducing health care disparities. By developing a workforce that mirrors the patient population, we can appropriately inform disability care, reducing health care disparities while embracing the tenets of the Americans With Disabilities Act (ADA), namely equal opportunity, full participation, independent living, and economic self-sufficiency for qualified individuals with disabilities. One in five individuals will experience disability at some point in their lives, making this the largest minority in the US. A commitment to disability inclusion for qualified students should be a high-level goal of nursing, medical, and other health science programs. To support this goal, leaders in these areas must develop robust programs and an understanding of the best practices for inclusion. This first of its kind title is designed to help deans, program directors, faculty, student affairs personnel, and disability resource professionals thoughtfully plan for the growing population of health care professionals with disabilities. The content helps stakeholders contextualize disability inclusion in health care education as a function of social justice and a mechanism of reducing health care disparities for patients. It offers pragmatic advice grounded in research, best practice, and case law to address the highly nuanced approach to determining and implementing accommodations in a high-stakes clinical environment. Disability as Diversity connects the moving parts necessary to ensure equal access for qualified students and provides a blueprint for crafting policy, proactive messaging,

improving climate adhering to accreditation standards addressing licensing and board exams responding to student failure all while remaining compliant with the Americans with Disabilities Act ADA and applicable Federal regulations This text provides educators with the perspectives and skills they need to bring disability inclusion to the forefront of health education
