**Collaborative Creativity** Dorothy Miell, Karen Littleton, 2004 The contributors to this volume adopt a socio cultural approach to understanding collaborative creativity across a wide range of domains such as music composition business school based creative writing and art fashion design theatre production and web based academic collaborations Central to the socio cultural approach to creativity is the recognition that it is a fundamentally social process It thus follows that if we are to understand and characterize human creativity we need to

examine the cultural institutional and interpersonal contexts that support and sustain such activity We also need to understand how cultural tools and technologies resource collaborative creativity The volume offers a distinctive and valuable contribution to this growing field of scholarship by presenting new empirical findings reviews and critiques of existing literature together with suggestions for how this field should develop

**Cognitive Benefits of Technologies Applied to Learning in Education** Beatriz Peña-Acuña, Yolanda Navarro Abal, Pedro Román-Graván, Pedro Tadeu, Manuel León-Urrutia, Javier Ávila-López, Rafael Crismán Crismán Pérez, Carmen M. Toscano-Fuentes, Carmen María Martín Del Pino, 2025-03-12

In general scientific inquiry about the benefits of digital gadgets focused on learning at all stages of Education is providing cognitive affective and attitudinal variables However cognitive effects stand out among these effects In this topic of inquiry that we propose we intend to investigate the phenomenon from a simple discipline to a multidisciplinary point of view that is from interventions that work transversally on some transversal theme in different disciplines or with a review approach from various points of view We also propose it to deepen the phenomenon with interventions that are investigated from an interdisciplinary perspective taking into account the qualitative and or quantitative study of a variable from one discipline and another variable from another discipline Likewise other studies of the cognitive effects of technologies in learning with paradigms or innovative approaches and evaluation of more complex interventions can be considered We are in a moment of transition from the use of analogue materials to digital tools

platforms applications gadgets tablets mobiles etc and advanced technology formats immersive realities and artificial intelligence This is a moment of technological transformation in which the benefits of new technologies in learning are beginning to be investigated both in interventions with grouping in individual perspective or in an interactive and collaborative perspective among equals It also coincides with the development of neuroscience and psychology applied to Education This research topic aims to contribute to deepen this topic and provide a global vision It also intends to indicate to what extent the development of the cognitive is relevant as well as to extend the variables that must be considered **PISA 2022 Technical Report** OECD,2024-03-01 This Technical Report has been prepared by those who implemented PISA during its 2022 cycle to provide transparency to these procedures and to the statistical and mathematical methods that underpin the comparability and validity of PISA 2022 results
