fiction imagined a world with space travel video calls and worldwide access to information things we now know as NASA's human spaceflight program Skype and the Internet What next Could we really bring back the dinosaurs travel to a distant star or live on Mars In The Science of Science Fiction readers ages 12 to 15 explore the science behind classic and modern science fiction stories including artificial intelligence androids and the search for alien life They learn how cutting edge concepts including time dilation and genetic manipulation influence today's fiction The Science of Science Fiction promotes critical thinking skills through inquiry discovery research analysis and reflection of key scientific ideas and concepts made popular by many titles in science fiction Each chapter features informative sidebars and video and website links for an in depth look at key topics Science minded experiments include a simple demonstration of artificial gravity using a bucket of water and calculating the speed of light using chocolate in a microwave This variety of resources ensures the material is accessible to students with diverse learning styles Gender and Care with Young Children B. Denise Hodgins,2019-04-08

This book is an exploration of how children educators and things become implicated in gendered caring practices Drawing on a collaborative research study with early childhood educators and young children the author examines what an engagement with human and non human relationality does to complicate conversations about gender and care By employing a feminist material analysis of early childhood education this book rethinks dominant Euro Western individualist pedagogies in order to reposition them within a relationality framework The analysis illuminates the political and ethical embeddedness of early childhood education and the understanding that gendering and caring emerge with in a complex web of many relations
