Ccma Study Guide For 2013:

The African Book Publishing Record ,2013 *Adjudicating Employment Rights* S. Corby,P. Burgess,2014-01-28

Adjudicating Employment Rights compares and analyses institutions for resolving employment rights disputes in ten countries In addition to detailed individual chapters the study offers a theoretical perspective and an evaluation of national institutions against key yardsticks [Institutional Competition between Common Law and Civil Law](#) Michèle

Schmiegelow,Henrik Schmiegelow,2014-05-27 This book addresses two countervailing challenges to theory and policy in law and economics The first is the rise of legal origins theory which denies the comparative law view of convergence between common law and civil law by the assertion of an economic superiority of common law The second is the series of economic crises in the very financial markets on which that assertion was based Both trends unsettled certainties about the rule of law and institutional economics Meeting legal origins theory in its main areas of political science sociology and economics the book extends the interdisciplinary reach to neglected aspects of comparative law legal history dynamic econometric analysis and quasi natural experiments with counterfactual evidence of different institutional regimes in divided countries These combined methodological tools make tests of the economic impact of different legal origins much more reliable This is shown for developed and newly industrialized countries as well as developing transforming and emerging countries with or without financial center advantage affected or not by financial crises The Asian financial crises and the American subprime crisis have been or could have been resolved using the resources of common law or civil law These cases and data on access to justice in Africa Asia and Latin America reveal the problem of substantive law remaining law on the books without efficient procedural rules and judicial structures The single most striking common law civil law divide is that lawyer dominated common law procedure is slower and costlier than judge managed civil law procedure Countries as diverse as the Netherlands Japan and China show functional interaction between culture and law in legal reforms Such interaction can reduce the occurrence of legal disputes as well as facilitate their resolution It can use economic crises as catalysts for legal reforms or rely on regional integration and it should replace the discredited method of legal transplants by sustained dialogue between legal advisors and all actors involved in legal reforms

Women's Activism in Africa Balghis Badri,Aili Mari

Tripp,2017-02-15 Throughout Africa growing numbers of women are coming together and making their voices heard mobilising around causes ranging from democracy and land rights to campaigns against domestic violence In Tanzania and Tunisia women have made major gains in their struggle for equal political rights and in Sierra Leone and Liberia women have been at the forefront of efforts to promote peace and reconciliation While some of these movements have been influenced by international feminism and external donors increasingly it is African women who are shaping the global struggle for women's rights Bringing together African authors who themselves are part of the activist groups this collection represents the only comprehensive and up to date overview of women's movements in contemporary Africa Drawing on case studies and fresh

empirical material from across the continent the authors challenge the prevailing assumption that notions of women's rights have trickled down from the global north to the south showing instead that these movements have been shaped by above all the unique experiences and concerns of the local women involved *Clinical Co-Management* JD, CRA, Cherilyn G.
