## **Dap Scoring Guide:**

Behavioral, Social, and Emotional Assessment of Children and Adolescents Kenneth W. Merrell, 2003 Behavioral Social and Emotional Assessment of Children and Adolescents Second Edition was written to provide a comprehensive foundation for conducting clinical assessment of child and adolescent social emotional behavior in a practical scientific and culturally appropriate manner. It is divided into two major sections. Part I includes eight chapters that provide a general foundation for assessment practice. These chapters include coverage of basic professional and ethical issues, classification and diagnostic problems, and six primary assessment methods which are presented in detail. Part II includes six chapters on applications for assessing specific social emotional behavior domains including internalizing and externalizing problems, social skills and peer relations, young children and diverse cultural groups. Together these two sections provide a framework for a model of assessment that is practical, flexible, sensitive to specific needs and empirically sound. Changes in the second edition of this book include increased coverage of the practice of functional behavior assessment, updated test reviews, reviews of new assessment instruments, updated information on legal and ethical issues, updated information on assessment and cultural diversity, and a handy appendix with contact information for all publishers of instruments discussed in the book including Web site addresses. To the greatest extent possible this book weaves together the most recent research evidence and common application issues. It is specifically relevant to practitioners and researchers in the fields of school psychology and child clinical psychology but will also be of interest to those in related disciplines such as counseling, social work, child psychiatry and special education.

**Handbook of Personality Assessment** Irving B. Weiner, Roger L. Greene, 2011-01-31

This comprehensive balanced guide to personality assessment written by two of the foremost experts in the field is sure to become the gold standard of texts on this topic. The Handbook of Personality Assessment covers everything from the basics including a historic overview and detailed discussion of the assessment process and its psychometric foundations to valuable sections on conducting the assessment interview and the nature, interpretation and applications of the most popular self-report, objective and performance based projective measures. A concluding section of special topics such as computerized assessment, ethical and legal issues and report writing are unique to this text.
