

Lab 9: Climate Patterns

- Refer to Figure 9.1. How does the climograph for a coastal location (location A) differ from that of other coastal locations (locations B through F)? There are two questions to help you with your response: does the location's temperature range (a) is it within about a 10°C temperature range throughout the year? (b) is the average daily maximum (a) is it above 10°C throughout the year? (b) is it above 10°C throughout the year? The climograph also is temperature during the winter of a typical day (displaying hours of day) and the summer of a typical day (displaying hours of day). This helps to understand the climate conditions during the winter and summer months. The climograph also displays the temperature range, and the average daily maximum.
- Compare the two climographs (location A and location B) to the climograph of location C. Is the temperature range (a) is it within about a 10°C temperature range throughout the year? (b) is it above 10°C throughout the year? The climograph also is temperature during the winter of a typical day (displaying hours of day) and the summer of a typical day (displaying hours of day). This helps to understand the climate conditions during the winter and summer months. The climograph also displays the temperature range, and the average daily maximum.
- Compare the two climographs (location A and location B) to the climograph of location D. Is the temperature range (a) is it within about a 10°C temperature range throughout the year? (b) is it above 10°C throughout the year? The climograph also is temperature during the winter of a typical day (displaying hours of day) and the summer of a typical day (displaying hours of day). This helps to understand the climate conditions during the winter and summer months. The climograph also displays the temperature range, and the average daily maximum.
- Compare the two climographs (location A and location B) to the climograph of location E. Is the temperature range (a) is it within about a 10°C temperature range throughout the year? (b) is it above 10°C throughout the year? The climograph also is temperature during the winter of a typical day (displaying hours of day) and the summer of a typical day (displaying hours of day). This helps to understand the climate conditions during the winter and summer months. The climograph also displays the temperature range, and the average daily maximum.
- Compare the two climographs (location A and location B) to the climograph of location F. Is the temperature range (a) is it within about a 10°C temperature range throughout the year? (b) is it above 10°C throughout the year? The climograph also is temperature during the winter of a typical day (displaying hours of day) and the summer of a typical day (displaying hours of day). This helps to understand the climate conditions during the winter and summer months. The climograph also displays the temperature range, and the average daily maximum.
- Compare the two climographs (location A and location B) to the climograph of location G. Is the temperature range (a) is it within about a 10°C temperature range throughout the year? (b) is it above 10°C throughout the year? The climograph also is temperature during the winter of a typical day (displaying hours of day) and the summer of a typical day (displaying hours of day). This helps to understand the climate conditions during the winter and summer months. The climograph also displays the temperature range, and the average daily maximum.
- Compare the two climographs (location A and location B) to the climograph of location H. Is the temperature range (a) is it within about a 10°C temperature range throughout the year? (b) is it above 10°C throughout the year? The climograph also is temperature during the winter of a typical day (displaying hours of day) and the summer of a typical day (displaying hours of day). This helps to understand the climate conditions during the winter and summer months. The climograph also displays the temperature range, and the average daily maximum.
