interaction between two or more people both verbally and non verbally so that the message that is being delivered is understood in the same way as was intended In many cases the message is so complicated or packed so tightly that it is impossible to unzip Unfortunately this will cause misunderstanding and misunderstanding leads to disaster You feel ashamed regretful or infuriated and your self confidence receives a battering Or worse you lose control of your emotions and end up abusing a family member or a colleague at work In this book I will show you the steps you need to follow to become a refined communicator I will start off with body language because this is where communication actually begins People uncontrollably send out a hurricane of body signals during the interaction Once you are able to read and understand these signals and manage your own non verbal signals then you are on your way to enhancing your communication skills I will then move to the art of verbally interacting with others so as to allow you to get better results and fulfill your expectations I will teach you how to react to criticism and how to provide proper feedback to others The majority of people would prefer to die than to conduct a presentation at work or make a speech at a social event Even though they may have the ability to mingle with others they find it overwhelming to present their knowledge to a group of people They end up compromising themselves and then drift into obscurity I have reserved a special section in this book that will help you to eliminate this problem and enhance your presentation skills The aim of this book is to allow you to get an insight into your own personality and show you what steps you need to take to acquire the ability to communicate more effectively I will show you how to communicate both verbally and non verbally so as to attract people s attention gain their respect and convince them to cooperate I will also help you to read and understand the signals that liars usually emit so as to allow you to react accordingly I guarantee that if you follow
