Community College Steven R. Helfgot, Marguerite McGann Culp, 1995-05-25      **School Review Monographs** National Society of College Teachers of Education, 1930      First-Generation College Students and Study Abroad Simon Mary Asese Ahiokhai, Matt Daily, Layla Garrigues, 2025-09-26 This book showcases the experiences of first generation college students on study abroad programs. Research shows that study abroad programs develop crucial life skills, provide valuable experiences, and enhance academic achievement. However, only a small percentage of first generation students access these opportunities. By centering the voices and stories of first generation students, this book advocates for equity in global education while reimagining study abroad as a more accessible and empowering experience. This book asks how faculty, administrators, and staff can tap into the strengths of first generation students to increase the number of those who take advantage of their opportunities and explores the ways in which first generation students contribute to the success and vision of study abroad programs. It will be of interest to scholars studying educational outreach, higher education, and comparative and international education.

**Publications, No. 1-132, 134-140** Herbert Anderson Toops, 1929      The Proceedings of International Conference Reinventing Higher Education, 1998      *Reconceiving Sport and Youth Culture as Bridges to Academic Success in an Urban High School* Jeffrey Michael Reyes Duncan-Andrade, 2002      *The Atlantic Monthly*, 1927      *Reinventing Richard Nixon* Daniel E. Frick, 2008 Examining Nixon's autobiographies and political memorabilia, Frick offers far-reaching perceptions not only of the man but of Nixon's version of himself contrasted with those who would interpret him differently. He cites reinventions of Nixon from the late 1980s, particularly the museum at the Richard Nixon Library and Birthplace, to demonstrate the resilience of certain national mythic narratives in the face of liberal critiques. And he recounts how celebrants at Nixon's state funeral at which Bob Dole's eulogy depicted a God-fearing American hero attempted to bury the sources of our divisions over him, rendering in some minds the judgment of redeemed statesman to erase his status as disgraced president. With dozens of illustrations Nixon posing with Elvis, the National Archives' most requested photo, Nixonian cultural artifacts, classic editorial cartoons, no other book collects in one place such varied images of Nixon from so many diverse media. These reinforce Frick's probing analysis to help us understand why we disagree about Nixon and why it matters how we resolve our disagreements.

*Leveling the Playing Field: Promoting Academic Success for Students of Color* Irene Harris Johnson,1996-08-05 Much of the retention literature has focused on at risk students of color especially freshmen whose admission has been facilitated by attenuated entrance requirements Of course this population of students has needs that urgently beg to be addressed however regularly or traditionally admitted students of color face college attrition rates that approach or exceed those of their at risk peers Comparatively less attention has been paid to the academically able students of color who are avidly recruited but for whom programs and services are noticeably lacking This volume is intended to fill a conspicuous void to provide ideas narratives and learnings that have relevance for the retention of all students of color but that can be particularly applied to the retention of regularly admitted students of color The authors have tried to bring to the fore the work of individuals who are building state of the art programs Student affairs professionals need to learn from these practitioners successes and insights how retention programs can become established
