Monk Mode John Arundel, 2024-08-23 The Buddhists say that everybody has 83 problems which is a curiously specific number but nonetheless it sounds about right to me Some problems are big some are small some can be solved and some can't Usually if you solve one problem another simply pops up to take its place The point is that everybody thinks If only I could just solve my 83 problems I'd be happy That's the 84th problem Monk Mode is on the other hand a book about living happily with your 83 problems not running away from them It's a storehouse of practical tips and ideas for achieving balance doing the stuff you want to do while building in plenty of time for sitting by the lake watching the birds or just counting clouds When's the last time you gave yourself permission to do nothing at all Maybe today's a good day to start It's tempting to feel that maybe unlike other people you just don't have what it takes discipline willpower tenacity fortitude grit moral fibre the list of things you don't have seems to be endless The self-help industry and the monk mode influencers want you to feel that there's something wrong with you and it can only be fixed by buying more self-help books or grinding or whatever But what if you are already everything you need to be and you've simply been reading the map upside down Monk Mode on the other hand is about drawing your own map You can decide what deserves your attention and what doesn't You don't have to live your life as a dopamine fiend enslaved by algorithms and constantly pecking the Skinner box in your pocket for microdoses of mental meth First learn stand then learn fly The book guides you gently through getting back on track from how to decide what changes to make to building the right habits that will make change stick It shows you how to find meaning through studying a craft and how to make the space time and silence in your life to hear yourself think Meditation nature stillness and movement are the tools you can use to build your own portable monastery one that you can take with you wherever you go Any idiot can punch and kick someone that's not martial arts The art is in not letting some idiot punch and kick you Life moves pretty fast as the great philosopher Ferris Bueller once said If you don't stop and look around once in a while you could miss it Monk Mode is your guidebook to figuring out where you are how far you've come and where you want to go It's the ultimate life coaching book for hard pressed technical workers and indeed everybody else If you've ever dreamed of going on a monastic retreat to get away from all the madness but can't afford to take the time off this book is the perfect solution It's a digital monastery that fits in your pocket

Making Movies into Art Kaveh Askari, 2019-07-25 Focusing on early cinema's relationship with the pictorial arts this pioneering study explores how cinema's emergence was grounded in theories of picture composition craft and arts education from magic lantern experiments in 1890s New York through to early Hollywood feature films in the 1920s Challenging received notions that the advent of cinema was a celebration of mechanisation and a radical rejection of nineteenth century traditions of representation Kaveh Askari instead emphasises the overlap between craft traditions and modernity in early film Opening up valuable new perspectives on the history of film as art Askari links American silent cinema with the practice of
