Allen IV, James, 2024-02-12 Across sub Saharan Africa countries with a greater percentage of overlapping days in their school and farming calendars also have lower primary school survival rates In theory greater overlap between the school and farming calendars should indeed reduce schooling investments and farm

based child labor too as it constrains the time allocation opportunity set for both productive activities I causally identify such effects by leveraging a four month shift to the school calendar in Malawi that exogenously changed the number of days that the school calendar overlapped with specific crop calendars which differentially affected communities based on their pre policy crop allotments Using panel data for school aged children I find that a 10 day increase in school calendar overlap during peak farming periods significantly decreases school advancement by 0.34 grades one lost grade for every three children and the share of children engaged in peak period household farming by 11 percentage points after four years Secondary analyses reveal stronger negative schooling impacts for girls and poorer households driven by overlap with the labor intensive planting period A policy simulation illustrates that adapting the school calendar to minimize overlap with peak farming periods is a highly cost effective educational intervention to increase school participation by better accommodating farm labor demand *Calendar of New Jersey Wills, Administrations, Etc* New Jersey Historical Society,1944 *Body*

Image Sarah Grogan,2016-09-29 *Body Image* provides a comprehensive summary of research on body image in men women and children drawing together research findings from the fields of psychology sociology clothing and gender studies This third edition has been thoroughly revised and updated to reflect the significant increase in research on body image since the previous edition as well as the significant cultural changes in how men s and women s bodies are viewed Data are also included from interviews and focus groups with men women and children who have spoken about their experiences of body image and body dissatisfaction producing a comprehensive understanding of how men and women construct and understand their bodies in the twenty first century The only sole authored text to provide a comprehensive view of body image research focusing on men women and children *Body Image* will be invaluable to students and researchers as well as practitioners with an interest in body image and how to reduce body dissatisfaction **Handy-book of Rules and Tables for Verifying**
