

A photograph of a paraglider in flight against a blue sky with white clouds. The paraglider's wing is a large, translucent blue fabric with black and yellow structural lines. The pilot, wearing a white helmet and dark clothing, is seated in a harness. Below the paraglider is a coastal landscape with green hills, a winding road, and a body of water. In the far distance, a large, snow-capped mountain range is visible.

College Physics Volume 1 (Chapters 1-16) Hugh Young, Philip Adams, 2019-01-11 For courses in College Physics. College Physics Volume 1 11th Edition contains Chapters 1-16. Help students see the connections between problem types and understand how to solve them. For more than five decades, Sears and Zemansky's College Physics has provided the most reliable foundation of physics education for students around the world. With the 11th Edition, author Phil Adams incorporates data from thousands of surveyed students detailing their use and reliance on worked examples, video tutorials, and need for just-in-time remediation when working homework problems and preparing for exams. Driven by how students actually use the text and media today to prepare for their exams, the new edition adds worked examples and new Example Variation Problems in each chapter to help students see patterns and make connections between problem types. They learn to recognize when to use similar steps in solving the same problem type and develop an understanding for problem solving approaches rather than simply plugging in an equation. The expanded problem types and scaffolded in problem support help students develop greater confidence in solving problems, deepen conceptual understanding, and strengthen quantitative reasoning skills for better exam performance. All new problems sets are available in Mastering Physics with wrong answer specific feedback along with a wealth of new wrong answer feedback hints and eTexts links with 20% of end of chapter problems.
