**Ugly Anita**  
Bhagwandas, 2023-02-16 We ve all had those moments The ones where you look in the mirror and nothing feels ok For Anita Bhagwandas this started when she was a child and it created an enduring internal torment about her looks We re all told that this is just part of growing up but it stays with us evolving as we age The internet tells us we should love ourselves whilst bombarding us with images of airbrushed perfection upholding centuries old beauty standards which we can t always see Our beauty rituals are so often based around things we think we need to fix grow and develop sometimes tipping into dangerous obsession So what seismic shift does it take to break free from this mentality In Ugly Anita uncovers where these beauty standards started unpicks why they ve been perpetuated and unmasks the structures that continue to support them From the ever growing cosmetic surgery industry to the hidden pitfalls of pretty privilege it is time to finally break free from those limiting beauty standards because feeling ugly should have nothing to do with how we look and everything to do with who wants us to feel lacking

**Producing Children** Peter C. Kunze, Victoria Ford Smith, 2025-04-15 Producing Children imagines the possibility indeed the inevitability of a creative relation between children as producers and consumers by revising the long established hierarchical relation between adults and children The chapters in this collection reveal that studying child produced culture complicates our received understandings of children s culture as culture by adults for children about children They also underscore children s literature as a cultural phenomenon that moves across and beyond genres forms and media As a whole this collection reveals that attention to child produced culture invites dialogue and

collaboration across fields and disciplines invested in the critical understanding of children as embodied beings and childhood as both a stage of development and discursive construct with social political economic and cultural dimensions and influence. With the ongoing vibrancy of childhood studies as a multidisciplinary area of inquiry studies of child produced culture provide scholars with an exciting opportunity to complicate, enrich and expand theorization of childhood creativity, children's culture and even children themselves.
