Calm Technology Principles And Patterns For Non Intrusive Design:

Calm Technology Amber Case,2015-12-18 How can you design technology that becomes a part of a user s life and not a distraction from it This practical book explores the concept of calm technology a method for smoothly capturing a user s attention only when necessary while calmly remaining in the background most of the time You ll learn how to design products that work well launch well are easy to support easy to use and remain unobtrusive Author Amber Case presents ideas first introduced by researchers at Xerox PARC in 1995 and explains how they apply to our current technology landscape especially the Internet of Things This book is ideal for UX and product designers managers creative directors and developers You ll learn The importance and challenge of designing technology that respects our attention Principles of calm design peripheral attention context and ambient awareness Calm communication patterns improving attention through a variety of senses Exercises for improving existing products through calm technology Principles and patterns of calm technology for companies and teams The origins of calm technology at Xerox PARC   **Emotionally Intelligent Design** Pamela Pavliscak,2018-11-21 As technology becomes deeply integrated into every aspect of our lives we ve begun to expect more emotionally intelligent interactions But smartphones don t know if we re having a bad day and cars couldn t care less about compassion Technology is developing more IQ but it still lacks EQ In this book Pamela Pavliscak design researcher and advisor to Fortune 500 companies explores new research about emotion new technology that engages emotion and new emotional design practices Drawing on her own research and the latest thinking in psychology neuroscience and behavioral economics Pamela shows you how design can help promote emotional well being You ll learn How design has transformed emotion and how tech is transforming it again New principles for merging emotional intelligence and design thinking How to use a relationship model for framing product interactions and personality Methods for blending well being interventions with design patterns How emotional resonance can guide designers toward ethical futures Implications of emotionally intelligent technology as it scales from micro to mega emotional spheres   Industrial Design and Artistic Expression Barbara Pasa,2020-03-09 The complex nature of industrial design which combines functional and aesthetic elements allows different modes of protection cumulative separate or partially overlapping regimes are applicable according to different legal systems The legal framework is rapidly changing especially in Europe where the principle of cumulation of a special sui generis regime for protecting industrial design with copyright rules has been established In the last decade national courts of some Member States conferred to the cumulative regime a peculiar meaning other courts enforced design rights in line with the interpretation given by the Court of Justice of the EU The copyright design interface is presented here to a wider non specialist audience taking as a starting point the notion of industrial design derived from design studies on the border between art and science   **Creativity and New Technologies in Learning for the Workplace and Higher Education** David Guralnick,Michael E. Auer,Antonella Poce,2026-02-09 New technologies provide us with new opportunities to create

new learning experiences leveraging research from a variety of disciplines along with imagination and creativity The Learning Ideas Conference was created to bring researchers practitioners and others together to discuss innovate and create The Learning Ideas Conference 2025 was the 18th annual conference and was held as a hybrid event The conference took place from June 11 13 2025 both in New York and online and included a Special Session from IGIP the International Society for Engineering Pedagogy The conference also held additional online only conference days on May 28 and 29 2025 Topics covered in this volume include among others uses of artificial intelligence in learning online learning methodologies case studies in university and corporate settings new technologies in learning such as along with AI virtual reality augmented reality holograms and more adaptive learning and project based learning The papers included in this volume may be of interest to researchers in pedagogy and learning theory university faculty members and administrators learning and development specialists user experience designers and others   Counterproductive Melissa Gregg,2018-10-25 As online distractions increasingly colonize our time why has productivity become such a vital demonstration of personal and professional competence When corporate profits are soaring but worker salaries remain stagnant how does technology exacerbate the demand for ever greater productivity In Counterproductive Melissa Gregg explores how productivity emerged as a way of thinking about job performance at the turn of the last century and why it remains prominent in the different work worlds of today Examining historical and archival material alongside popular self help genres from housekeeping manuals to bootstrapping business gurus and the growing interest in productivity and mindfulness software Gregg shows how a focus on productivity isolates workers from one another and erases their collective efforts to define work limits Questioning our faith in productivity as the ultimate measure of success Gregg s novel analysis conveys the futility pointlessness and danger of seeking time management as a salve for the always on workplace   **Design Behind Interaction** Umberto Tolino,Ilaria Mariani,2024-08-07 This book investigates how digital transformation and technological innovations are challenging traditional design paradigms and redefining the conception of interfaces suggesting a future where interfaces seamlessly integrate into or disappear within smart objects Through the lens of Thingk a university spin off of the Politecnico di Milano it addresses the practical application of theoretical design research in creating objects that while analog in appearance are technologically augmented embracing a multidisciplinary approach that includes product design communication and interaction design Covering an eight year span of experimental design and analysis it dives into how smart objects leverage context awareness and situated meanings engaging users from research and co creation to validation The significance of this book lies in its comprehensive analysis and insights into the design process behind such objects underscoring the need for thorough examination of how semantic reconfigurations impact on affordances and agency With a strong emphasis on a research through design approach and case studies it bridges theoretical inquiry with practical applications offering insights into the potentials of design driven innovation in evolving user experiences   Strategic Innovative Marketing and Tourism
