through a unique mixture of theoretical analysis and concrete discussions of some of the most popular and influential forms of contemporary media culture. Studies cover a wide range of topics including Reagan and Rambo horror and youth films, women's films, the TV series *Orange Is the New Black* and Hulu's TV series based on Margaret Atwood's *The Handmaid's Tale*, the films of Spike Lee and African American culture, Latino films and cinematic narratives on migration, female pop icons Madonna, Beyoncé and Lady Gaga, fashion and celebrity television, news, documentary films and the recent work of Michael Moore, fantasy and science fiction with focus on the cinematic version of *Lord of the Rings*, Philip K. Dick and the *Blade Runner* films and the work of David Cronenberg. Situating the works of media culture in their social context within political struggles and the system of cultural production and reception, Kellner develops a multidimensional approach to cultural studies that broadens the field and opens it to a variety of disciplines. He also provides new approaches to the vexed question of the effects of culture and offers new perspectives for cultural studies. Anyone interested in the nature and effects of contemporary society and culture should read this book.
