Nutrition Fundamentals International Bestseller:

The Hidden Plague Tara Grant, 2019-06 This is the new paperback version of the bestselling hardcover edition that has helped thousands of sufferers turn their health around. Read the couple hundred Amazon reviews attached to the now out of print hardcover book. You will be touched deeply by the level of suffering and frustration that people have endured then achieved rapid results by following holistic plan presented in the Hidden Plague. Have you been plagued with boils, cysts, ingrown hairs and acne like bumps that take months to resolve, leave embarrassing scars and cause considerable pain? Have you been to the doctor only to leave with a prescription for antibiotics, few answers and little to no hope? Hidradenitis suppurativa (HS) is a poorly understood skin condition that is believed to affect nearly twelve million people in the United States alone. Only a small fraction of those affected have been properly diagnosed, leaving many others to suffer in silence or pursue ill advised conventional treatment methods that fail to address the cause of this painful condition. Tara Grant, a twenty year sufferer of HS, has become an underground legend to her Internet community of HS victims by presenting a methodical self tested action plan to heal naturally. The centerpiece of her holistic approach rests on the understanding that HS is an autoimmune disorder caused by leaky gut syndrome. With a few simple dietary changes that eliminate certain trigger foods, you can heal your gut, restore your skin, reclaim your health and rid yourself of HS symptoms forever. That means no antibiotics, no experimental surgeries and no more pain, suffering or confusion. You will learn to adopt a big picture perspective about disease and dysfunction and understand how autoimmunity, the body attacking itself in an adverse manner, represents the root cause of many frustrating chronic health conditions. By modifying your diet and other lifestyle habits, you can break free from the suffering, frustration and uncertainty that seems to go hand in hand with autoimmune conditions and skin conditions like HS, in particular. Author Tara Grant has synthesized years of research, personal trial and error and cutting edge functional medicine and dietary strategies to give you a simple, doable action plan to clean up your diet and clean up your skin. The Hidden Plague is a fabulous and comprehensive resource for not just HS specifically, but many other related inflammatory and autoimmune conditions.

Whitaker's Cumulative Book List, 1978 Nutrition and Fitness for Athletes Artemis P. Simopoulos, Konstantinos N. Pavlou, 1993 **'Everyday health', embodiment, and selfhood since 1950** Tracey Loughran, Hannah Froom, Kate Mahoney, Daisy Payling, 2024-10-22 What is the history of everyday health in the postwar world and where might we find it? This volume moves away from top down histories of health and medicine that focus on states, medical professionals and other experts. Instead, it centres the day to day lives of people in diverse contexts from 1950 to the present. Chapters explore how gender, class, race, sexuality, disability and age mediated experiences of health and wellbeing in historical context. The volume foregrounds methodologies for writing bottom up histories of health, subjectivity and embodiment, offering insights applicable to scholars of times and places beyond those represented in the case studies presented here. Drawing together cutting edge scholarship, the volume establishes and critically interrogates everyday health.
