guarantee you've never read anything like this before A missing Creator An army of mechanical zombies And a devastating secret that will destroy everything Adal Arika and the rest of their team are happy to be back home in the World Machine But before they can get comfortable things start to heat back up between the Dwellers that live in the Machine and those that would see it destroyed Webley is the only one who can quell the buzz of war but the Creator has gone missing That's when the screaming starts Reports of a masked creature spread like the plague Then a virus breaks out in the Machine A virus that turns the Dwellers into Zombies Can the team unmask the doctor and find a cure before the virus destroys the world The most intense book of the series so far This is a twisty turny thrill ride and I can't wait for the next one If you love great world building wonderful characters loads of fast paced action and tons of snark give this series a try You won't be disappointed
