Americans have expressed hostility towards American democracy Their radicalization is increasingly visible in our day to day

life in neighbor s or family member s open discussion of bizarre conspiracy theories reveling in the fantasy of mass

murdering the liberals they believe are drinking the blood of children These are the results of the deranged series of lies

stoked by former President Donald Trump made worse by the global pandemic The first steps of an American fracture were

predicted by Malcolm Nance months before the January 6 2021 insurrection heralding the start of a generational terror

threat greater than either al Qaeda or the Islamic State Nance calls this growing unrest the Trump Insurgency in the United

States or TITUS The post 2020 election urge to return to a place of normalcy to forget is the worst response we can have

*The Materiality of Narrative Dynamics* Stefan Iversen, Evan Van Tassell, 2025-06-02 The dynamic nature of storytelling has long been one of the major concerns of narrative research but relatively little scholarship has engaged with the relationship between storytelling dynamics and the underlying material forms of cultural texts This volume seeks to remedy this by asking questions such as How might the affordances of new media guide audience reception in subtle ways How might the dynamism of legacy media be better recognized when examined through a multimedial lens How do the physical processes of production define the horizons of both authorial activity and audience response The insight that drives these investigations is two fold first that functions and effects of narratives are deeply intertwined with material forces of production distribution and reception and second that an analysis of any specific narrative must include attention to these material matters and how they affect the unfolding of stories over time The chapters in this collection explore interplays between material forces and narrative dynamics across a range of genres and intellectual arenas In doing so they both fill gaps in current methodological frameworks and call attention to the many gaps that are yet to be filled Upstarts!: How
