*Outgrowing God?* Peter S. Williams, 2020-09-30 Join a cast of characters with different perspectives thinking through some of the biggest questions in life as they discuss atheist Richard Dawkins's book *Outgrowing God A Beginner's Guide* Written in the form of a dialogue between members of a student book club *Outgrowing God A Beginner's Guide* to Richard Dawkins and the God Debate encourages critical thinking about Professor Dawkins's arguments concerning God Jesus and the Bible

**Representation of Disability in Children's Video Games** Krystina Madej, 2024-01-10 Representation of Disability in Children's Video Games looks at how children's engagement with characters and stories in video games helps create the perception of disability they have as teens and adults Drawing on child development theory supported by neuroscience the book shows how the scaffold of information the schema adults have of disability is first created at a very young age as they interact through play with characters with disabilities in narrative video games Positing that early video game play experiences should provide exposure to narrative schemas that add understanding and help create meaning about the disability represented the book presents how such representation in children's video games maps against cognitive development and the psychomotor and cognitive needs and abilities of children 3-12 Through close readings of over 40 PEGI 3 and PEGI 7 ESRB E 10 games and analysis of games as diverse as Backyard Baseball and Sly Cooper the author defines broad categories of representation representation as cosmetic providing exposure but not game play utility as incidental used as a device that provides purpose for the narrative or as more authentically representing the disability as integral to the character and their life The book provides readers with an overview of contemporary games that better their understanding of how children's games present disability and how children create their perceptions through interaction with characters and stories This book will be of interest to academics and students of game studies in topics such as behavioural science ethics and HCI as well as in sociology communications and digital media It is pertinent in particular to game developers and to educators disability advocates parents and policy makers

*Teaching Young Adult Literature Today* Judith A. Hayn, Jeffrey S. Kaplan, Karina R. Clemons, 2016-11-02 Teaching Young Adult Literature Today introduces the reader to what is current and relevant in the plethora of good books available for adolescents More importantly literary experts illustrate how teachers everywhere can help their students become lifelong readers by simply introducing them to great reads smart insightful and engaging books that are specifically written for adolescents Hayn Kaplan and their contributors address a wide range of topics how to avoid common obstacles to using YAL selecting quality YAL for classrooms while balancing these with curriculum requirements engaging disenfranchised readers pairing YAL with technology as an innovative way to teach curriculum standards across all content areas Contributors also discuss more theoretical subjects such as the absence of lesbian gay bisexual transgender and questioning LGBTQ young adult literature in secondary classrooms and contemporary YAL that responds to the changing expectations of digital generation readers who want to blur the boundaries between page

and screen This book has been updated to reflect the wealth of new YA literature that has been published since the first edition appeared in March 2012 and to reflect new trends in technology that influences how adolescents are reading and responding to literature **Mind Mapping and Artificial Intelligence** Jose Maria Guerrero,2022-10-22 In the near future we will see an increase in the development and use of all sorts of AI applications Some of the more promising areas will be Finance Healthcare IoT Manufacturing Journalism and Cybersecurity Many of these applications generate a great amount of complex information Natural Language Understanding is one of the most clear examples Traditional ways of visualizing complex information namely linear text web pages and hyperlink based applications have serious productivity problems Users need a lot of time to visualize the information and have problems seeing the whole picture of the results Mind mapping is probably the only way of reducing the problems inherent in these traditional ways of visualizing complex information Most people have no clear idea about the advantages of mind mapping or the problems created by the traditional ways of visualizing complex information The goal of Mind Mapping and Artificial Intelligence is to provide readers with an introduction to mind mapping and artificial intelligence to the problems of using traditional ways of visualizing complex information and as an introduction to mind mapping automation and its integration into Artificial Intelligence applications such as NLU and others As more applications of Artificial Intelligence are developed in the near future the need for the improvement of the visualization of the information generated will increase exponentially Information overload will soon also happen in AI applications This will diminish the advantages of using AI Author Jos Maria Guerrero is a long time expert in mind mapping and visualization techniques In this book he also introduces readers to MindManager mind mapping software which can considerably reduce the problems associated with the interpretation of complex information generated by Artificial Intelligence software Provides coverage of the fundamentals of mind mapping and visualization applied to Artificial Intelligence applications Includes coverage of the scientific bases for mind mapping for the visualization of complex information Introduces MindManager software for mind mapping Introduces the author's MindManager toolkit for the readers to use in development of new mind mapping applications Includes case studies and real world applications of MindManager for AI applications including examples using IBM Watson NLU **Leaders in Philosophy of Education** Leonard J. Waks,2014-11-26 In the late 1950s plans were initiated to bring a higher level of professionalism to the training of educational professionals New projects included introducing contemporary scholarship from the humanities and social sciences into colleges of education to revitalize the education knowledge base In North America and the United Kingdom analytical philosophers were recruited to inaugurate a new philosophy of education Analytical philosophy of education soon spread throughout the English speaking world By the 1980s this analytical impulse had largely subsided Philosophers trained in analytical philosophy and their students turned to more ambitious normative pursuits related to problems of social justice and democracy Meanwhile feminist philosophers opened up new issues regarding the education of women and the nature of

teaching and knowing and a new wave of pragmatist philosophers turned to issues of educational policy By the 1990s Anglo American philosophers of education welcomed a dialogue with counterparts in Western Europe and the field responded to established trends in European philosophy ranging from critical theory and phenomenology to post structuralism New leaders emerged in philosophy of education representing all of these various strands This volume documents the emergence of contemporary philosophy of education as seen by those spearheading these trends *Book Review Digest* ,2008
