[Embedding STEAM in Early Childhood Education and Care](#) Caroline Cohrssen, Susanne Garvis, 2021-05-28 This book approaches STEAM Science Technology Engineering the Arts and Mathematics in early childhood education from multiple angles It focuses on the teaching and learning of children from two years of age to the early years of school Proponents of STEAM describe how it can create opportunities for children to learn creatively and various chapter authors make strong connections between discipline areas within the context of an informal curriculum Others advocate for an integrated STEM rather than STEAM approach With a light touch on theory and a focus on how to embed STEAM in an integrated early childhood curriculum the editors and contributors examine the STEAM versus STEM question from multiple angles The chapters provide helpful frameworks for parents teachers and

higher education institutions and make practical suggestions of ways to support young children's inquiry learning.
