## Post Apocalyptic Story Spotlight

**Patrick Meanor, Richard Edward Lee**

## **Post Apocalyptic Story Spotlight:**

Contemporary American Fiction in the European Classroom Laurence W. Mazzeno, Sue Norton, 2022-04-06 This book offers insight into the ways students enrolled in European classrooms in higher education come to understand American experience through its literary fiction which for decades has been a key component of English department offerings and American Studies curricula across the continent and in Great Britain and Ireland. The essays provide an understanding of how post World War II American writers some already elevated to canonical status and some not are represented in European university classrooms and why they have been chosen for inclusion in coursework. The book will be of interest to scholars and teachers of American literature and American studies and to students in American literature and American studies courses

**Geek Heroines** Karen M. Walsh, 2019-10-11 Geek Heroines not only tells the stories of fictional and real women but also explores how they represent changes in societal views of women including women of color and the LGBTQ community. Geek culture stems from science and technology and so is frequently associated with science fiction. In the beginnings of science fiction the genre was tied to magic and dystopian outcomes; however, as technology turned geek into chic, geek culture extended to include comics, video games, board games, movie books, and television. Geek culture now revolves around fictional characters about whom people are passionate. Geek Heroines seeks to encourage women and young girls in pursuing their passions by providing them with female role models in the form of diverse heroines within geek culture. Carefully curated to incorporate LGBTQ identities as well as racial diversity, the book defines geek culture, explains geek culture's sometimes problematic nature, and provides detailed fiction and nonfiction biographies that highlight women in this area. Entries include writers and directors as well as characters from comic books, science fiction, speculative fiction, television, movies, and video games.

### **Post-traumatic Culture**

Kirby Farrell,1998-09-29 According to Kirby Farrell the concept of trauma has shaped some of the central narratives of the 1990s from the war stories of Vietnam vets to the video farewells of Heaven s Gate cult members from apocalyptic sci fi movies to Ronald Reagan s memoir *Where s the Rest of Me* In Post traumatic Culture Farrell explores the surprising uses of trauma as both an enabling fiction and an explanatory tool during periods of overwhelming cultural change Farrell s investigation begins in late Victorian England when physicians invented the clinical concept of traumatic neurosis for an era that routinely categorized modern life as sick degenerate and stressful He sees similar developments at the end of the twentieth century as the Vietnam war and feminism returned the concept to prominence as post traumatic stress syndrome Seeking to understand the psychological dislocation associated with these two periods Farrell analyzes conflicts produced by dramatic social and economic changes and suddenly expanded horizons He locates parallels between the cultural fantasies of the 1890 s in novels and stories by Arthur Conan Doyle Rider Haggard H G Wells Bram Stoker and Oscar Wilde and novels and films of the 1990 s that explore such issues as child sexual abuse domestic violence unemployment racism and apocalyptic rage In their dependence on late Victorian models the cultural narratives of 1990s America imply a crisis of storylessness deeply implicated in the sense of injury that haunts the close of the twentieth century *World Film*

*Locations: Hong Kong* Linda Chiu-Han Lai,Kimburley Wing-ye Choi,2014-05-14 The rapid development of Hong Kong has occasioned the demolition of buildings and landscapes of historic significance but film acts as a repository for memories of lost places vanished vistas and material objects Location shoots in Hong Kong have preserved many disappearing landmarks of the city and the resulting films function as valuable and irreplaceable archives of the city s evolution Far more than a

simple collection of movie locations this book delivers a rare glimpse into the history of film production practices in Hong Kong The locations described here are often not the most iconic rather they are the anonymous streets and back alleys used by local film studios in the 1960s and 70s They are the garden cafes with outdoor seating near the Chinese University of Hong Kong where moments of conflict in romantic comedies erupt and dissipate They are the old Kai Tak Airport which channels rage and desire and the tenement housing which splits citizens into greedy landlords and the diligent working class and embodies old day communal values Modern Hong Kong horror films draw their power from the material character of home grown convenient stores shopping arcades and lost mansions found under modern high rises As in the films of Wong Kar wai and Johnnie To readers will drift and dash through the streets of Central to the district s periphery almost recklessly automatically or for the sheer pleasure of roaming The first of its kind in English this book is more than a city guide to Hong Kong through the medium of film it is a unique exploration of relationship between location and place and genre innovations in Hong Kong cinema
