Youtube Book Review Framework:

Visioning Technologies Graham Cairns, 2016-12-08 Visioning Technologies brings together a collection of texts from leading theorists to examine how architecture has been and is reframed and restructured by the visual and theoretical frameworks introduced by different technologies of sight understood to include orthographic projection perspective drawing telescopic devices photography film and computer visualization amongst others Each chapter deals with its own area and historical period of expertise organized sequentially to mark out and analyse the historical evolution of how architecture has been transformed by technologically induced shifts in human perception from the 15th century until today This book underlines the way in which architectural forms and design processes have developed historically in conjunction with the systems of sight we manufacture technologically and suggests this continues today Paradoxically it is premised on the argument that these technological systems tend in their initial formulations to obtain ever greater realism in our visualizations of the physical world

The Routledge Companion to Children's Literature and Culture Claudia Nelson, Elisabeth Wesseling, Andrea Mei-Ying Wu, 2023-11-30 Focusing on significant and cutting edge preoccupations within children's literature scholarship The Routledge Companion to Children's Literature and Culture

presents a comprehensive overview of print digital and electronic texts for children aged zero to thirteen as forms of world literature participating in a panoply of identity formations Offering five distinct sections this volume Familiarizes students and beginning scholars with key concepts and methodological resources guiding contemporary inquiry into children s literature Describes the major media formats and genres for texts expressly addressing children Considers the production distribution and valuing of children s books from an assortment of historical and contemporary perspectives highlighting context as a driver of content Maps how children s texts have historically presumed and prescribed certain identities on the part of their readers sometimes addressing readers who share some part of the author s identity sometimes seeking to educate the reader about a presumed other and in recent decades increasingly foregrounding identities once lacking visibility and voice Explores the historical evolutions and trans regional contacts and inter connections in the long process of the formation of global children s literature highlighting issues such as retranslation transnationalism transculturality and new digital formats for considering cultural crossings and renegotiations in the production of children s literature Methodically presented and contextualized this volume is an engaging introduction to this expanding and multifaceted field

The Book Review Digest ,2006 **Hip Hop and Political Voice for Young South Sudanese Australians** Sarah J. Williams,2024-12-15 This book explores the building of political voice of young South Sudanese Australians to resist racialising discourses particularly through Hip Hop Michigan Law Review ,2013 Business and Human Rights Nadia Bernaz,2016-10-04 Business corporations can and do violate human rights all over the world and they are often not held to account Emblematic cases and situations such as the state of the Niger Delta and the collapse of the Rana Plaza factory are examples of corporate human rights abuses which are not adequately prevented and remedied Business and human rights as a field seeks to enhance the accountability of business companies and businesspeople in the human rights area or to phrase it differently to bridge the accountability gap Bridging the accountability gap is to be understood as both setting standards and holding corporations and businesspeople to account if violations occur Adopting a legal perspective this book presents the ways in which this dual undertaking has been and could be further carried out in the future and evaluates the extent to which the various initiatives in the field bridge the corporate accountability gap It looks at the historical background of the field of business and human rights and examines salient periods events and cases The book then goes on to explore the relevance of international human rights law and international criminal law for global business International soft law and policy initiatives which have blossomed in recent years are evaluated along with private modes of regulation The book also examines how domestic law especially the domestic law of multinational companies home countries can be used to prevent and redress corporate related human rights violations Auravana Decision System Auravana,2022-07-12 This publication is the Decision System for a community type society A decision system describes the formal structuring of decisions involving a comprehensive information system that resolves into a modification to the state dynamic of the material environment A

decision system is a collection of information processing components often involving humans and automation e.g computing that interact toward a common set of objectives This decision system is designed to coordinate and control the flow of resources for global accessibility to all goods and services To navigate in common humanity must also decide in common Herein individuals maintain a relationship to resources that focuses on access rather than possession maximizing the advantages of sharing and incentivizing cooperative rather than competitive interest All requirements relevant to human fulfillment and ecological well being are factored in to the allocation of resources optimizing quality of life for all while ensuring the persistence of the commons The standard s decision processes produce tasks that are acted upon by an intersystem a k a interdisciplinary team involving the coordinated planning and operation of projects Through this comprehensive and transparent decisioning process individuals know precisely what needs to be accomplished to sustain and evolve their fulfillment Herein through formalized decisioning and cooperation humanity may continuously restructure society toward a higher potential dynamic of life experience for all The use of a common social approach and data set allows for the resolution of societal level decisions through common protocols and procedural algorithms openly optimized by contributing users for aligning humanity with its stated values and requirements **Swiss Review** ,2008 *Copyright Law* Brian Fitzgerald,Benedict Atkinson,2011 This three volume series brings together previously published research articles on the origins and development of copyright law as an instrument of political control and individual expression *Social Theory and Practice* ,2011 **Misbelief** Dan Ariely,2023-09-19 In this thoughtful moving and well written book Dan Ariely narrates his personal and professional journey to understand the world of misbelievers and conspiracy theories and offers insights and tips that will hopefully help all of us protect our fragile social fabric from being torn apart by disinformation and distrust Yuval Harari bestselling author of *Sapiens* Misbelief is an urgent examination of the human attraction to misinformation This timely book can provide a crucial foundation for building a more empathetic and informed society Daniel H Pink 1 New York Times bestselling author of *The Power of Regret* The renowned social scientist professor and bestselling author of *Predictably Irrational* delivers his most urgent and compelling book an eye opening exploration of the human side of the misinformation crisis examining what drives otherwise rational people to adopt deeply irrational beliefs Misinformation affects all of us on a daily basis from social media to larger political challenges from casual conversations in supermarkets to even our closest relationships While we recognize the dangers that misinformation poses the problem is complex far beyond what policing social media alone can achieve and too often our limited solutions are shaped by partisan politics and individual interpretations of truth In Misbelief preeminent social scientist Dan Ariely argues that to understand the irrational appeal of misinformation we must first understand the behavior of misbelief the psychological and social journey that leads people to mistrust accepted truths entertain alternative facts and even embrace full blown conspiracy theories Misinformation it turns out appeals to something innate in all of us on the right and the left and it is only by understanding

this psychology that we can blunt its effects Grounded in years of study as well as Ariely's own experience as a target of disinformation Misbelief is an eye opening and comprehensive analysis of the psychological drivers that cause otherwise rational people to adopt deeply irrational beliefs Utilizing the latest research Ariely reveals the key elements emotional cognitive personality and social that drive people down the funnel of false information and mistrust showing how under the right circumstances anyone can become a misbeliever Yet Ariely also offers hope Even as advanced artificial intelligence has become capable of generating convincing fake news stories at an unprecedented scale he shows that awareness of these forces fueling misbelief make us as individuals and as a society more resilient to its allure Combating misbelief requires a strategy rooted not in conflict but in empathy The sooner we recognize that misbelief is above all else a human problem the sooner we can become the solution ourselves
