Counter-narratives of Young Adult Literature by Women of Color Traci P. Baxley,Genyne Henry Boston,2014-09-02 Current school systems create a generation of students who experience institutional practices that honor other students needs those students who share the values of those with power and have pathologized other groups specifically women of color In Visible Presence intends to contribute to existing pedagogy which empowers students teachers administrators and

policy makers to develop participatory membership in schools and among citizens who can begin to create an anti oppressive society In Visible Presence contains a holistic thematic approach to exploring young adult YA novels written by women of color while providing cultural and historical contexts for interpreting and analyzing their work through a feminist lens Unlike other scholarship In Visible Presence uses a feminist theoretical framework to create a space in which select literary works offer counter narratives that can be analyzed and critically interpreted according to principles and ideas intended to validate women thus making their triumph over racism sexism classism and heterosexism and equity challenges a visible cause relegating consequential change for both young girls and women of color In Visible Presence maintains current discourse dialogue through a concentration on the intersectionality of gender race and class identities and how these identifiers serve as criteria for privilege and marginalization even in YA literature In Visible Presence aims to explore YA literature written by women of color represented by African American Asian American Indian American and Latina Americans Our theoretical perspective focuses on the connection of race gender and class that is exclusive to women of color The construction of voice and space is important for readers to hear from those once silenced **Tending to the Past** Karen Michele

Chandler,2024-01-18 In many popular depictions of Black resistance to slavery stereotypes around victimization and the heroic efforts of a small number of individuals abound These ideas ignore the powers of ordinary families and obscure the systematic working of racism Tending to the Past Selfhood and Culture in Children s Narratives about Slavery and Freedom examines Black authored historical novels and films for children that counter this distortion and depict creative means by which ordinary African Americans survived slavery and racism in early America Tending to the Past argues that this important understudied historical writing freedom narratives calls on young readers to be active critical thinkers about the past and its legacies within the present The book examines how narratives by children s book authors such as Joyce Hansen Julius Lester Marilyn Nelson and Patricia McKissack and the filmmakers Charles Burnett and Zeinabu irene Davis were influenced by Black cultural imperatives such as the Black Arts Movement to foster an engaged culturally aware public Through careful analysis of this rich body of work Tending to the Past thus contributes to ongoing efforts to construct a history of Black children s literature and film attuned to its range specificity and depths Tending to the Past provides illuminating interpretations that will help scholars and educators see the significance of the freedom narratives reconstructions in a neoliberal era a time of shrinking opportunities for many African Americans It offers models for understanding the powers and continuing relevance of the Black child s creative agency and the Black cultural practices that have fostered it Copper Sun Sharon M. (Sharon Mills) Draper,2006 Two girls one a slave and the other an indentured servant escape their Carolina plantation and try to make their way to Fort Moses Florida a Spanish colony that gives sanctuary to slaves **Opportunity** Elmer Anderson Carter,1928 Engaging with Multicultural YA Literature in the Secondary Classroom Ricki Ginsberg,Wendy Glenn,2019-02-18 With a focus on fostering democratic equitable education for

young people Ginsberg and Glenn's engaging text showcases a wide variety of innovative critical classroom approaches that extend beyond traditional literary theories commonly used in K-12 and higher education classrooms and provides opportunities to explore young adult YA texts in new and essential ways. The chapters pair YA texts with critical practices and perspectives for culturally affirming and sustaining teaching and include resources, suggested titles, and classroom strategies. Following a consistent structure, each chapter provides foundational background on a key critical approach, applies the approach to a focal YA text, and connects the approach to classroom strategies designed to encourage students to think deeply and critically about texts themselves and the world. Offering a wealth of innovative pedagogical tools, this comprehensive volume offers opportunities for students and their teachers to explore key and emerging topics including culture, disability, ethnicity, gender, immigration, race, sexual orientation, and social class.
