A near future thriller of a devastating alien invasion from the paleontologist who inspired Jurassic Park and the award winning science fiction author There were always those who disagreed with broadcasting signals into the deepest reaches of outer space because our mere existence could be taken as a threat They were right to be concerned In the spring of 2076 just days short of America's tricentennial celebrations every inhabited surface in the solar system gets wiped out by a catastrophic storm of relativistic bombs flaming swords that pierced the sky The only two survivors left on Earth exist in a submersible that had been exploring the Titanic's final resting place on the bottom of the North Atlantic In space only the settlers in small asteroid based colonies have gone unnoticed by the aliens for now But any sign of life any call for help might bring the Intruders straight to them These far flung survivors are now on their own stalked by a ruthless faceless enemy straight out of the nightmares of humanity's greatest minds those lone voices whose warnings went ignored A novel of such conceptual ferocity and scientific plausibility that it amounts to a reinvention of that old Wellsian staple alien invasion

The story set in rural and urban England is written as two books Book I dealing with the invasion itself and Book II reliving the narrator's experiences as Mankind lives under its alien conquerors until finally winning freedom. The fame of this exceptional story was enhanced first when radio star Orson Welles stunned listeners in the United States in October of 1938 by broadcasting a dramatic adaptation of *The War of the Worlds* so authentic that it caused panic throughout the country and resulted in countless calls to federal and state authorities. *The War of the Worlds* has since been adapted for radio, television and the silver screen countless times and it is widely recognized as the bestselling science fiction story of all time. This new large print edition is oversized for easy handling and printed in a classic easy to read font.

**The War of the Worlds** H. G. Wells, 2013-05-17. *The War of the Worlds* is a science fiction novel by H G Wells. It is the first person narrative of an unnamed protagonist's adventures in London and the countryside southwest of London as Earth is invaded by Martians. *The War of the Worlds* has two parts Book One *The Coming of the Martians* and Book Two *The Earth under the Martians*. The narrator, a philosophically inclined author, struggles to return to his wife while seeing the Martians lay waste to southern England. The plot has been related to invasion literature of the time. The novel has been variously interpreted as a commentary on evolutionary theory, British imperialism and generally Victorian fears and prejudices. At the time of publication it was classified as a scientific romance like his earlier novel *The Time Machine*. *The War of the Worlds* has been both popular and influential, spawning half a dozen feature films, radio dramas, various comic book adaptations, a television series and sequels or parallel stories by other authors.

**Alien Invasion!** Guy Bass, 2010. The unluckiest alien in the universe, Hex, is the unluckiest space invader on Planet X. Every time he tries to do anything, it goes wrong. He can't shoot a ray gun, he can't fly a spaceship and he couldn't spot an earthling even if it jumped up and bit him on the probe. When Hex discovers his long lost father is living on Planet Earth, he can't believe his luck until he discovers Earth is about to be invaded. Is there anything Hex can do to stop the invasion and save his dad? Guy Bass is an exciting new voice in young boys' fiction.

He must get back to his wife and on his journey he sees the Martians lay waste to southern England. How can we possibly fight back against a technologically superior race? This novel has inspired a great many other books, movies, including the notorious radio broadcast by Orson Welles in 1938 that caused widespread panic because listeners thought it was real.
