Changes In Scripture Changes In Scripture:

Biblical Ethics and Social Change Stephen Mott, 2011-03-23 This scholarly synthesis of biblical studies and Christian social ethics is designed to provide a biblical argument for intentional institutional change on behalf of social justice Stephen Charles Mott provides a biblical and ethical guide on ways to implement that change The first part of the book providing the biblical theology of intentional social change deals with the central concepts in biblical and theological ethics grace evil love justice and the Reign of God Christian social change must be rooted not only in justice but in the grace received through the death and resurrection of Christ The second part evaluates ethical and theological methods for carrying out that intentional social change It offers a study of evangelism counter community civil disobedience armed revolution and political reform It shows the contribution of each as well as the strong limitations of each used in isolation A recurring theme of the book is the scriptural insistence on the priority of justice as taking upon oneself the cause of the oppressed Justice is understood on bringing back into the community those who are near to falling out of it Political authority has a vital role in social change for justice It is essential that a Christian use all available and legitimate means of meeting basic needs by providing for all what is essential for inclusion in society In this revised edition Mott updates the contemporary illustrations and includes his own further reflections in the last thirty years on this topic

Changes in Scripture Hanne von Weissenberg, Juha Pakkala, Marko Marttila, 2011 The articles in this volume investigate changes in texts that became to be regarded as holy and unchangeable in Judaism and Christianity The volume seeks to draw attention to the empirical evidence from Qumran the Septuagint as well as from passages in the Hebrew Scriptures that have been shaped by the use of other texts The contributions are divided into three main sections The first section deals with methodological questions concerning textual changes The second section consists of concrete examples from the Hebrew Bible Qumran and Septuagint on how the texts were changed corrected edited and interpreted The contributions of the third section will investigate the general influence and impact of Deuteronomistic ideology and phraseology on later texts
