It is an excellent training resource for mental health professionals working in institutions that provide higher levels of acute care including inpatient partial hospitalization and or intensive outpatient programs as well as those running groups in traditional outpatient settings. They also provide guidance for troubleshooting situations that often arise around when conducting groups with a population that is often highly dysregulated. The second section includes exercises and handouts that can be reproduced and shared with participants enabling them to follow along during the group session and to complete exercises and review material in their own time.
