Crash Course Weeding Library Collections:

Crash Course in Weeding Library Collections Francisca Goldsmith, 2015-11-02 Weeding is a perennial challenge for librarians. This book will help you rise to the task by offering you basic instructions including information on new formats and digital collections. Weeding is often difficult; who can easily decide to discard books and other materials that someone may someday want to borrow? But weeding is essential to keeping your collection healthy and relevant. Perfect for all types of libraries and for both paraprofessionals and librarians unfamiliar with modern weeding methods, this practical guide offers clear guidance that can help you cope with the sometimes paralytic fear and distaste that can accompany a must-do task. Each of the book's chapters treats a specific concern: for example, weeding electronic collections. Practical matters related to collection maintenance through material and online resource weeding are addressed, as are policy and procedure, documentation and communication planning, and best practices. You'll read about weeding ethics, using vendor-provided weeding tools, and floating collections. The book also shares advice on training volunteers as weeding assistants and on communicating with library stakeholders about collection maintenance. By showing you how to make weeding a normal part of your library's routine, this book will help you provide your community with a healthier, better circulating and more valuable collection.

Crash Course in Collection Development Wayne Disher, 2023-06-15 The third edition of *Crash Course in Collection Development* is a must-have for librarians just entering the field and professionals in need of a refresher in effective library operations. It now covers all aspects of collection development and management, including inventory assessment, market analysis, budgeting, marketing, and customer service in all library environments, including public, academic, and school libraries. Focusing on collection development basics, it begins with information on gathering statistics and analyzing community needs to design a collection that meets user needs. It goes on to guide users in writing a collection development policy, budgeting, selecting materials, managing vendor relations, understanding the publishing industry, merchandising, and promoting the collection and handling complaints. Newly included in the third edition is a discussion of new purchasing and lending models, information for academic and school librarians, and such new trends as libraries as spaces for users, collection diversity, issues, makerspaces, nontraditional collections, pop-up libraries, the digital divide, and noncirculating collections. Author Wayne Disher has once again written a practical and simple introduction to an important, complex, and evolving area of library service.

Crash Course in Collection Development Wayne Disher, 2007 Provides an introduction to collection development which utilizes the connection between a library and community and discusses the career responsibilities and includes assessing and evaluating, managing library budgets, selecting materials, reviewing various sources, and fielding complaints.
