Building Bridges between Cultures in Ian McDonald's Science Fiction Jerome Winter, 2025-09-18 This book is a career long retrospective of the Irish writer Ian McDonald and his complex compelling representation of our contemporary global condition. Ian McDonald is a celebrated writer within the science fiction community whose rich and urgent body of works span over a quarter of a century. The author claims McDonald's work functions as vital troubling allegories which both refuse the Orientalist euphemizing of colonial atrocities while still at the same time envisioning a transformative global alterity seeking an ethical and political embrace of systematically silenced subaltern voices in the neoliberal world system. The book follows McDonald as the globe trotting writer travels from Ireland to Kenya to India to Brazil to Turkey to a proliferating multiverse and beyond. Along the way the author analyzes McDonald's science fiction as a salient contribution to the flourishing cosmopolitan literature of postcolonial developing nations at the crossroads of the global imaginary. *The Cambridge Companion to American Science Fiction* Gerry Canavan, Eric Carl Link, 2015-01-26 The Cambridge Companion to American Science Fiction explores the relationship between the ideas and themes of American science fiction and their roots in the American cultural experience. The Reflective Age Zachary Griffith, 2025-12-09 At the end of history nothing ever really ends Though characterized on one hand by sociopolitical and economic stasis stagnation and decline twenty first century American culture has also been marked by the constant ebb and flow of preexisting artifacts and styles so that when one fades out of fashion it is always replaced by another reiteration Change on the cultural level has accelerated at an unprecedented rate and old things are constantly returning anew The present in other words promotes the feeling that nothing is changing and simultaneously everything is In the midst of this paradoxical sense of constant flux and grinding stagnation underwritten by the notion that there is no alternative to the malaise of the present the nostalgic past emerges as the only viable refuge The Reflective Age investigates how nostalgic American media of the 2010s and early 2020s reflects and contributes to these conditions showing how the films TV shows music and literature of the period illustrate a radical shift in both the role that nostalgia plays in the American cultural and political landscape as well as in nostalgia itself **Catalogue of Books Exclusive of Prose Fiction in the Central Lending Library** Leeds (England).
