

CESSNA 1966 1967 AND 1968 MODELS' EXECUTIVE SKYKNIGHT

FOREWORD

This Service Manual contains factory recommended procedures and instructions for ground handling, servicing and maintaining the Cessna Executive Skyknight aircraft. Where specific reference is made to the Executive Skyknight aircraft in this Service Manual, this reference applies to 330D, 330E, and 330F Type-Certificated aircraft. Besides serving as a reference for the experienced mechanic, this Service Manual also covers step-by-step procedures for the less experienced mechanic. This Service Manual should be kept in a handy place for ready reference. If properly used, it will better enable the mechanic to maintain the Cessna Executive Skyknight aircraft and, thereby, establish a reputation for reliable service.

The information in this Service Manual is based on data available at the time of publication, and is supplemented and kept current by Service Letters and Service News Letters published by Cessna Aircraft Company. These are sent to all Cessna Dealers so that they have the latest authoritative recommendations for servicing Cessna airplanes. Therefore, it is recommended that Cessna owner's utilize the knowledge and experience of the factory-trained Dealer Service Organization.

In addition to the information in this Service Manual, a group of vendor publications are available from the Cessna Customer Services Department which describe complete disassembly, overhaul and parts breakdowns of some of the various vendor equipment items. A listing of the available publications is issued periodically in Service Letters.
