Chemical Dependency A Systems Approach 4th Edition

Paul R. Raffoul, Carl Aaron McNeece

Chemical Dependency A Systems Approach 4th Edition:

Chemical Dependency Carl Aaron McNeece, Diana M. DiNitto, 1994 Provides complete coverage of chemical dependency from aetiology epidemiology and treatment to regulation and prevention. The text uses a systems approach that links the individual with familial, community and environmental factors influencing drug use. *Chemical Dependency* C. Aaron McNeece, Diana M. DiNitto, 2012-07 Comprehensive presentation of substance abuse with the most recent issues in epidemiology, etiology, substance abuse policy and treatment. The book looks at substance abuse from a systems perspective. It presents all major theories of addiction as well as the major physiological and psychological results of substance abuse, including fetal alcohol syndrome. Coverage of the latest developments in treatment including pharmacological approaches, recent research on treatment outcomes and a comprehensive discussion of etiological theories including genetics is included. This edition contains an up to date discussion of the most recent trends in designer drugs to help explain the considerable frequency of changes in which drug use patterns occur. Learning Goals Upon completing this book readers should be able to:

Understand at risk drinking and substance disorders including how to identify these problems, how to intervene once they have been identified and how to make referrals. Identify approaches to help clients avoid or address substance use disorders. Examine current information on the most rigorous scientific studies of treatment effectiveness. Trace the development of new medication assisted treatments.

Substance Abuse and the Family Michael D. Reiter, 2025-08-12 This fully updated third edition of Substance Abuse and the Family demonstrates what it means to view addiction through a systems lens by considering biology and genetics, family relationships and larger systems. Michael D. Reiter illustrates how to examine a person's predilection to become addicted, their social environment around substance use, the functionality of their family and various treatment options. Chapters are organized around two sections: assessment and treatment. The first section pays attention to how the family system organizes around substance use and abuse. Here family roles, culture and other issues such as family violence and resilience are covered. Two chapters are also included on the neuroscience and genetics of addiction. There are also chapters on roles of family members in addicted families using genograms and working in a culturally

sensitive way with culture specific consideration paid to Black Hispanic and Latin American Asian American and Indigenous families A separate chapter examines issues faced by both youth and adult children of alcoholics The second half of the book explores what a systems orientation means in practice and goes over self help groups for individuals and families An overview of the major family therapy theories is included which examines intergenerational experiential communication strategic systemic and postmodern models New to this edition is a chapter on trauma and stigma and its relationship to addictions and substance use and abuse Each chapter has been updated with cutting edge research and additional figures to enhance concepts as well a case application to demonstrate and apply each chapter's ideas Intended for undergraduate and graduate students as well as beginning practitioners this text provides one of the most in depth examinations on the topic available
