Complex Justice Complex Justice:

Complex Justice Joshua M. Dunn, 2012-09-01 In 1987 Judge Russell Clark mandated tax increases to help pay for improvements to the Kansas City Missouri School District in an effort to lure white students and quality teachers back to the inner city district. Yet even after increasing employee salaries and constructing elaborate facilities at a cost of more than 2 billion the district remained overwhelmingly segregated and student achievement remained far below national averages. Just eight years later the U.S. Supreme Court began reversing these initiatives signifying a major retreat from *Brown v. Board of Education*. In Kansas City African American families opposed to the district court's efforts organized a takeover of the school board and requested that the court case be closed. Joshua Dunn argues that Judge Clark's ruling was not the result of tyrannical judicial activism but was rather the logical outcome of previous contradictory Supreme Court doctrines. High Court decisions Dunn explains necessarily limit the policy choices available to lower court judges introducing complications the Supreme Court would not anticipate. He demonstrates that the Kansas City case is a model lesson for the types of problems that develop for lower courts in any area in which the Supreme Court attempts to create significant change. Dunn's exploration of this landmark case deepens our understanding of when courts can and cannot successfully create and manage public policy.

A Better Justice? Amanda Nelund, 2020-10-01 Women are the fastest growing group of incarcerated people in Canada. While feminist criminologists advocate for community alternatives to imprisonment they often do so without offering a corresponding analysis of existing community programs. And critical criminologists rarely consider gender in their assessment of the options. This book brings these criminological strands together in a concise and carefully reasoned analysis of alternative justice programs for criminalized women. Drawing on interviews with staff and documents from alternative justice agencies, Amanda Nelund finds that alternative programs neither reproduce dominant justice system norms nor provide complete alternatives. Instead, formal and informal practices reflect the tension between neoliberal and social justice approaches. *A Better Justice* calls attention to the potential that alternative programs have for both alignment

with and opposition to criminal justice norms It is in the potential points of resistance that we can find improved strategies and ultimately greater social justice for criminalized women in Canada **Justice** Louis P.
