Creating Customer Love Creating Customer Love:

Creating Customer Love Dave Ratner, 2009 If belief leads to trust and trust leads to customer loyalty then consider this one of the most practical handbooks on how to start a love affair with your customers To Dave Ratner an independent retailer for over thirty years it s always been about creating unshakeable relationships with his customers It s a path that has helped him and other independents like him beat the big box retailers Even the U S Congress has called upon Dave to share his retail insights and advice His story has been covered by the Wall Street Journal The Associated Press and CNN Dave is a sought after motivational speaker because of his humor and common sense approach to business and customer relations If ever there was a down to earth roadmap for business success that you could start implementing today this is it **Built to Love** Peter Boatwright, Jonathan Cagan, 2010-09-13 Offers data driven proof that products and services appealing to customer s emotional needs outsell the competition Provides a clear method and set of tools to enable companies to develop high emotion products and services Includes case examples from a wide variety of industries Emotion is the single greatest lever in building enduring relationships with customers it s what makes them not just purchase a product or service but get excited about it Leading companies do more than produce things that work better They address their customers emotional needs they make them feel better But this isn t something you can add on after the fact Your products and services must be built to love from the very start This book shows you how Peter Boatwright and Jonathan Cagan have worked on product and brand strategy with market leaders like Apple Whirlpool International Truck PG E and many others They ve found that to really connect with customers emotions must be generated by the product itself not simply tacked on through advertising And they prove the bottom line value of product driven emotion by analyzing the stock performance of companies that sell high emotion products and through data that show people are willing to pay more for products with emotionally rich features After showing that authentic product emotion really does pay off they move on to how how emotion can be broken down into its core building blocks how it is then used to develop new products and services and how product touchpoints in particular visual touchpoints deliver those emotions Engaging case studies from a variety of industries will help you understand how to integrate emotion into your products and services regardless of the nature of your business Emotion is fundamental to all that is human including the products we enjoy Built to Love will help you gain loyal even fanatical customers by going beyond mere efficiency and speaking to their deepest needs and wants *Winning Customer Love* James Buchanan, 2014 An exploration of how businesses can demonstrate love to customers so that customers will in turn fall in love with the business and the brand Amazon [How to Make Your Customers Love You!](#) Customer Service Training Institute, Kimberly Peters, 2015-01-21 When it comes to your business how do you measure up in terms of customer service What do your customers think about doing business with your business Are they happy with your business Do they get a great customer experience or just an average one Are they impressed with your business Are your customers loyal to your business or do

they follow the lowest price The answers to those questions and more will determine how successful your business is going to be now and in the future If you don't take steps now to provide the very best customer experience for every customer you might just find those customers going over to your competition Get the information and techniques you need to easily create a first class customer focused business right now and in the future *Strategic Customer Service* John A.

GOODMAN,2009-05-13 The success of any organization depends on high quality customer service But for companies that strategically align customer service with their overall corporate strategy it can transcend typical good business to become a profitable word of mouth machine that will transform the bottom line Drawing on over thirty years of research for companies such as 3M American Express Chik Fil A USAA Coca Cola FedEx GE Cisco Systems Neiman Marcus and Toyota author Goodman uses formal research case studies and patented practices to show readers how they can calculate the financial impact of good and bad customer service make the financial case for customer service improvements systematically identify the causes of problems align customer service with their brand harness customer service strategy into their organization's culture and behavior Filled with proven strategies and eye opening case studies this book challenges many aspects of conventional wisdom using hard data and reveals how any organization can earn more loyalty win more customers and improve their financial bottom line
