Imagine a giant box is delivered to your front doorstep with your name on it. What's inside and what happens when you open it?

Write a short story about what it might be like if you woke up one morning with a mermaid tail.

Write about what would it be like if you had an alligator as a pet.

If you were in charge of the whole world, what would you do to make the world a happier place?

Imagine that dogs take over the world. What do they make the humans do?

Write about 3 places you would like to travel someday. What do these three places have in common?

Write a poem that starts with the word "I".

How do you feel when someone takes something of yours without asking? What is a good way to deal with it when that happens?

Imagine you walk out your front door one morning and it is raining popcorn! What do you do?

Pratt-Chadwick,1900 Teaching in the Riptide Adam Wolfsdorf,2026-01-27 This book takes a deep dive into the
psychological underpinnings that motivate students to act in ways that subvert our intended curricular plans The book
classifies student subversions into two distinct categories i obtrusive subversions which occur when the psychological
needs of the student overwhelm or override the teacher s intended goals and ii constructive subversions which occur when
students perform unexpected acts that defy the educator s implicit expectations but do so through actions that align in
surprising ways with the educator s intentions Through a narrative style that highlights case studies from 25 years of
classroom experience at the high school university and graduate level the book aims to help educators understand and query
the types of psychological foundations that give rise to unexpected boundary pushing attitudes and behaviors among
students The goal of Teaching in the Riptide is to embolden educators to deepen their understanding of the cultural roots and
emotional forces that compel students to subvert In the process the book aims to enhance the educator s own metacognitive
awareness and capacities so that they can act with more flexibility and compassion when working with students who
challenge classroom norms As we are living during a time of rapidly accelerating cultural change innovation and adversity
this book will serve as an invaluable tool for educators striving for personal authenticity and practical guidance to teach with
greater effectiveness and serve the diverse needs of their students Teaching in the Riptide will appeal to a broad spectrum of
readers students researchers teacher educators educators pre service teachers working in the fields of Classroom
Management Educational Psychology Philosophy of Education and Pedagogy It will also serve as an invaluable companion to
in service teachers policy makers and educational administrators curriculum developers and NGOs working in the field of
