The lessons in this bundle will teach you everything that you need to know about disciplining your child in a healthy manner without losing your temper. When you lose your temper when attempting to discipline a toddler, especially if you've already ruined any sort of discipline that you could have imparted on them, these methods will show you how to make sure to impart healthy discipline, morals, and rules on your child and ensure that they have the best shot at life that you can give them. The surprising definition of discipline. The benefits of proactive parenting. Methods to become proactive parenting. You will learn how to discipline your child who is between the ages of one to three years of age. These are difficult times because toddlers are just beginning to flex their independent muscles. When children are this age, they will test the parental authority to see how far they can go. To a toddler, the world is huge, and they long to explore and experience it. They do not have the intelligence yet to discern what could be a danger to them. This is where parents must set a basic boundary and put forth rules that will help to protect and guide their toddler through these often turbulent years.
