Postapocalyptic Fiction and the Social Contract Claire P. Curtis, 2010-07-17 Postapocalyptic Fiction and the Social Contract We'll Not Go Home Again provides a framework for our fascination with the apocalyptic events. The popular appeal of the end of the world genre is clear in movies, novels, and television shows. Even our political debates over global warming, nuclear threats, and pandemic disease reflect a concern about the possibility of such events. This popular fascination is really a fascination with survival: how can we come out alive? And what would we do next? The end of the world is not about species death but about beginning again. This book uses postapocalyptic fiction as a terrain for thinking about the state of nature, the hypothetical fiction that is the driving force behind the social contract. The first half of the book examines novels that tell the story of the move from the state of nature to civil society through a Hobbesian, a Lockean, or a Rousseauian lens, including Lucifer's Hammer by Larry Niven and Jerry Pournelle, Alas, Babylon by Pat Frank, Malevil by Robert Merle, and Into the Forest by Jean Hegland. The latter half of the book examines Octavia Butler's postapocalyptic Parable series in which a new kind of social contract emerges, one built on the fact of human dependence and vulnerability.

How Zombies Conquered Popular Culture Kyle William Bishop, 2015-10-02 Since the early 2000s, popular culture has experienced a Zombie Renaissance, beginning in film and expanding into books, television, video games, theatre, productions, phone apps, collectibles, and toys. Zombies have become allegorical figures embodying cultural anxieties, but they also serve as models for concepts in economics, political theory, neuroscience, psychology, computer science, and astronomy. They are powerful, multifarious metaphors representing fears of contagion and doom, but also isolation and abandonment, as well as troubling aspects of human cruelty, public spectacle, and abusive relationships. This critical examination of the 21st century zombie phenomenon explores how and why the public imagination has been overrun by the undead horde.

Evolution and Popular Narrative, 2019-06-07 The contributors to this volume share the assumption that popular narrative, when viewed with an evolutionary lens, offers an incisive index into human nature. In theory, narrative art could take a near infinity of possible forms. In actual practice, however, particular motifs, plot patterns, stereotypical figures, and artistic devices persistently resurface, indicating specific predilections frequently at odds with our actual living conditions. Our studies explore various media and genres to gauge the impact of our evolutionary inheritance in interdependence with the respective cultural environments on our aesthetic appreciation. As they suggest, research into mass culture is not only indispensable for evolutionary criticism but may also contribute to our understanding of prehistoric selection pressures that still influence modern preferences in popular narrative. Contributions by David Andrews, James Carney, Mathias Clasen, Brett Cooke, Tamás Dávid, Barrett, Tom Dolack, Kathryn Duncan, Isabel Behncke Izquierdo, Joe Keener, Alex C. Parrish, Todd K. Platts, Anna Rotkirch, Judith P. Saunders, Michelle Scalise, Sugiyama, Dirk Vanderbeke, and Sophia Wege.
