Writers seeking to create novels and screenplays with genuine layers and depth will find essential insight in Mitchell German's Your Storytelling Potential. After studying filmmaking and screenwriting at NYU one of the premier film studies programs in the United States if not the world, Mitchell German graduated with a complete doctrine on storytelling theory in his arsenal yet his screenplays still lacked the potency he desired. He spent ten years studying every available book and expert on storytelling but it wasn't until 2002 after endlessly studying the movie *Liar Liar* that Mitchell found the key and developed the Your Storytelling Potential Method. The truth about great storytelling is hidden in plain view for anyone to see but nearly every expert ignores the most basic story construct. In Your Storytelling Potential, writers who seek to tell great stories will find a complete understanding of the Identifiable Traits great novels and screenplays, namely movies, have that distinguish them from the other 99.99% of books and screenplays written every year. How to use Two Stories within a screenplay and novel which exponentially increases the chances of those stories gaining buzz and attention. A proper understanding of the critical and essential role of Subplots to create genuine character depth and relationships. How to properly integrate a Theme for stories to convey deep, relevant and amazing ideas. An outline for utilizing A B Parallel Story Structure and the Simple Story Timeline to build multi dimensional stories with the required converging events of the A Story B Story relationship. How the premise of every great story is created by the convergence of the A B Storylines and how this Key Information can unlock Your Storytelling Potential.

Reginald, Robert Reginald, 2009-11. *Science Fiction Fantasy Book Review* was founded in 1979 to provide comprehensive coverage of all the major and minor books being released in the genre at that time. Over a thousand books were covered during the single year of publication, many of them having been reviewed nowhere else before or since. The January 1980 issue includes a comprehensive index of all the works featured during the preceding year. This reprint will be a welcome addition to the literature of science fiction and fantasy criticism. Neil Barron is a retired bibliographer and literary critic, editor of the acclaimed *Anatomy of Wonder* series. Robert Reginald was the publisher for twenty five years of Borgo Press and has authored over 110 books of his own.
