Battery Calibration

The first time you use a battery, you should calibrate it. The calibration process empties and charges the battery one time. This allows the Windows battery gauge to accurately monitor battery status. To calibrate a battery, follow these steps:

1. Plug in the AC adapter.
2. Restart the computer and when the startup screen appears, press DEL key to enter the Setup Utility.
3. In the Setup Utility, select Power Management Setup , choose Battery Auto Calibration, then press PgDn.
4. You will be prompted to make sure the AC adapter and Battery are present. Do this and then Select Yes to begin "battery auto-learning". Please press Space Bar to select option, and Enter to continue.

Battery Calibration will take from 10 to 16 hours, depending on how much power the battery may already contain.

NOTE For optimum performance, we recommend calibrating the battery every three months.

Dictionary of Acronyms and Technical Abbreviations J. Vlietstra,Jakob Vlietstra,1997 My first encounter with acronyms took place when I was ten years old and growing up in an occupied COWltry during the Second World War My father proudly annoWlced one day that despite the ban imposed by the occupying administration he had managed to get a radio installed and could receive the BBC All acronyms used in this introduction are listed in this dictionary To me the meaning ofBBC was that we would receive different information about the war than we got from the usual censored broadcasts There was of course the well known acronym associated with the nT but at that time I did not realize that it meant more than the postal service in those years a deteriorated service Gradually the daily use of acronyms grew Most of the newly acquired three and four letter abbreviations referred to organiza tions such as the broadcasting corporations in The Netherlands and Belgium and references to coWltries such as the USA USSR and UK When attending high school the HBS after the war my knowledge of acronyms grew slowly Even during the ten years I spent in the Dutch Merchant Marine the GHV the number of acronyms was limited to ad vanced equipment that eventually became known as RADAR LORAN and DECCA *International Aerospace Abstracts* ,1998 *Forthcoming Books* Rose Arny,2003-12 *Who's Who in Science and Engineering 2008-2009* Who's Who Marquis,Marquis Who's Who,2007-12 **Microwave Journal** ,2006
