The Very Best of Children's Book Illustration Society of Illustrators (New York, N.Y.), 1993. If you dream of writing and illustrating a children's book and getting it published, you're not alone. You want to know what it is that successfully published illustrators do that gets them the top authors and books. This book will help you see what the difference is. It displays in full color the very best in contemporary American children's book illustration as selected by the Society of Illustrators for The Original Art Exhibition 1992. More than 500 of the best children's book illustrators and publishers submit newly published children's books to a jury of respected experts such as Alan Cober, Charles Santore, Ted Lewin, and Joanna Long. Here you'll find the work of the finalists chosen by this distinguished panel to be included in the annual exhibition in New York. The 160 artists represented here include renowned children's book illustrators such as Richard Egelski, Anita Lobel, Leo and Diane Dillon, Trina Schart Hyman, and Jerry Pinkney, as well as up-and-coming talent such as David Wiesner, Chris Raschka, and Henrik Drescher. From this book you'll find out what's selling and which types of art are being selected for which types of books. You'll find a short caption for each piece offering valuable information about the book, including its author, publisher, the story it tells, and the medium in which the illustrator worked. You'll also discover new talent. But most of all, you'll be inspired by the range and beauty of the art itself.

Handbook of Research on Teaching Literacy Through the Communicative and Visual Arts, Volume II James Flood, Shirley Brice Heath, Diane Lapp, 2015-04-22. The *Handbook of Research on Teaching Literacy Through the Communicative and Visual Arts, Volume II* brings together state-of-the-art research and practice on the evolving view of literacy as encompassing not only reading, writing, speaking, and listening but also the multiple ways through which learners gain access to knowledge and skills. It forefronts as central to literacy education the visual, communicative, and performative arts and the extent to which all of the technologies that have vastly expanded the meanings and uses of literacy originate and evolve through the skills and interests of the young.
