Challenging Exceptionally Bright Children in Early Childhood Classrooms Ann Gadzikowski, 2013-05-07 Support and guide exceptionally bright children while creating richer inclusive learning environments for all children in early childhood classrooms

**Learning to Read and Write** Margaret Harris, Giyoo Hatano, 1999-05-27 For many years the development of theories about the way children learn to read and write was dominated by studies of English speaking populations As we have learned more about the way that children learn to read and write other scripts whether they have less regularity in their grapheme phoneme correspondences or do not make use of alphabetic symbols at all it has become clear that many of the difficulties that confront children learning to read and write English specifically are less evident or even non existent in other populations At the same time some aspects of learning to read and write are very similar across scripts The unique cross linguistic perspective offered in this book including chapters on Japanese Greek and the Scandinavian languages as well as English shows how the processes of learning to read and spell are affected by the characteristics of the writing system that children are learning to master

**Tactics of Hope in Latinx Children's and Young Adult Literature** Jesus Montaña, Regan Postma-Montaña, 2024-06-01 Using Gloria Anzaldá's theories of *conocimiento* as a critical lens the authors examine several literary works including *Side by Side* *Lado a lado* *They Call Me Gero* *Land of the Cranes* *Efrén Divided* and *Gabi a Girl in Pieces*

**Growing Readers** Kathy Collins, 2023-10-10 Primary grade teachers face an important challenge teaching children how to read while enabling them to build good habits so they fall in love with reading Many teachers find the independent reading workshop to be the component of reading instruction that meets this challenge because it makes it possible to teach the reading skills and strategies children need and guides them toward independence intention and joy as readers In *Growing Readers* Kathy Collins helps teachers plan for independent reading workshops in their own classrooms She describes the structure of the independent reading workshop and other components of a balanced literacy program that work together to ensure young students grow into strong well rounded readers Kathy outlines a sequence of possible units of study for a yearlong curriculum Chapters are devoted to the individual units of study and include a sample curriculum as well as examples of mini lessons and reading conferences There are also four *Getting Ready* sections that suggest some behind the scenes work teachers can do to prepare for the units Topics explored in these units include print and comprehension strategies reading in genres such as poetry and nonfiction connecting in school reading and out of school reading developing the strategies and habits of lifelong readers A series of planning sheets and management tips are presented throughout to help ensure smooth implementation We want our students to learn to read and we want them to love to read To do this we need to lay a foundation on which children build rich and purposeful reading lives that extend beyond the school day The ideas found in *Growing Readers* create the kind of primary classrooms where that happens
