Gregory J. Durston,2014-08-11 In recent years much has been published on women crime and justice in English history  
However for a variety of reasons particularly the ready availability of source material for the capital such research has  
tended to have an overwhelmingly Metropolitan focus This book aims to redress the balance for the long eighteenth century  
by concentrating on women from outside the London area Although vitally important to the wider country the Metropolis  
always contained a small minority of the country s female offenders and defendants albeit a significantly higher percentage  
of the latter than its share of the national population The capital also had a rather different criminal justice and policing  
system to that found in the rest of the country at this time The book focuses on women s experiences in provincial England as  
both the perpetrators of various crimes and as suspects or defendants in the country s criminal justice system The areas  
considered range from the West Country to the Scottish Border and the offences examined include all of the major crimes  
such as murder and theft as well as some more arcane forms of deviance including arson and coining The factors that  
prompted women to offend their likelihood of exposure when they did so and their treatment before the courts and in the  
penal system are all considered in detail In particular the book examines the gendered differences found in female crime  
when compared to that of their male counterparts and how women s experiences of the era s justice system differed from  
those of men It also compares provincial women to those found in the Metropolis in these respects Extensive use is made of  
primary sources in portraying the lives of female criminals from Kent to Cumberland while comparison is also made with  
women from other parts of the British Isles and beyond so that the respective roles of structural determinants and national  
culture in crime and justice can be considered      *Banking and Negotiable Instruments* Sir Frank Tillyard,1914      *Book*
