

A large, dark, textured alien head with a mechanical, ribbed mouth is positioned at the top of the frame, looking down. A human man with a shocked expression is being held by a large alien hand, which is gripping his face. The scene is set outdoors with a landscape and a bridge in the background.

**Historical Dictionary of Science Fiction in Literature** M. Keith Booker, 2014-10-01 The Historical Dictionary of Science Fiction in Literature is a useful reference to the broad and burgeoning field of science fiction literature. Science fiction literature has gained immensely in critical respect and attention while maintaining a broad readership. However, despite the fact that it is a rapidly changing field, contemporary science fiction literature also maintains a strong sense of its connections to science fiction of the past, which makes a historical reference of this sort particularly valuable as a tool for understanding science fiction literature as it now exists and as it has evolved over the years. The Historical Dictionary of Science Fiction in Literature covers the history of science fiction in literature through a chronology, an introductory essay, and an extensive bibliography. The dictionary section has over 300 cross-referenced entries including significant people, themes, critical issues, and the most significant genres that have formed science fiction literature. This book is an excellent access point for students, researchers, and anyone wanting to know more about this subject.

**Historical Dictionary of Horror Literature** Mark A. Fabrizi, 2023-12-06 Stories of vampires, werewolves, zombies, witches, goblins, mummies, and other supernatural creatures have existed for time immemorial, and scary stories are among the earliest types of fiction ever recorded. This book contains a chronology, an introduction, and an extensive bibliography. The dictionary section has more than 400 cross-referenced entries covering authors, subgenres, tropes, awards, organizations, and important terms related to horror. The Historical Dictionary of Horror Literature is an excellent resource for students, researchers, and anyone wanting to know more about horror literature.

Saricks, 2019-07-03 Everyone's favorite guide to fiction that's thrilling, mysterious, suspenseful, thought-provoking, romantic, and just plain fun is back and better than ever in this completely revamped and revised edition. A must for every readers' advisory desk, this resource is also a useful tool for collection development librarians and students in LIS programs. Inside, RA experts Wyatt and Saricks cover genres such as Psychological Suspense, Horror, Science Fiction, Fantasy, Romance, Mystery, Literary, and Historical Fiction, and introduce the concepts of Adrenaline and Relationship Fiction. The Oxford Companion to Children's Literature provides an indispensable and fascinating reference guide to the world of children's literature. Its 3,500 entries cover every genre from fairy tales to chapbooks, school stories to science fiction comics, to children's hymns. Originally published in 1983, the Companion has been comprehensively revised and updated by Daniel Hahn. Over 900 new entries bring the book right up to date. A whole generation of new authors and illustrators are showcased with books like Dogger, The Hunger Games, and Twilight, making their first appearance. There are articles on developments such as manga, fan fiction, and non-print publishing, and there is additional information on prizes and prizewinners. This accessible A to Z is the first place to look for information about the authors, illustrators, printers, publishers, educationalists, and others who have influenced the development of children's literature, as well as the stories and characters at their centre. **Defenders** Will McIntosh, 2014-05-13 A new epic of alien invasion and human resistance by Hugo Award-winning author Will McIntosh. The invaders came to claim earth as their own, overwhelming us with superior weapons and the ability to read our minds like open books. Our only chance for survival was to engineer a new race of perfect soldiers to combat them. Seventeen feet tall, knowing and loving nothing but war, their minds closed to the aliens. But these saviors could never be our servants. And what is done cannot be undone.
