All nurses play an important role in supporting mental health as part of holistic care provision. This book is designed to help students and novice clinicians to develop the knowledge, skills, and attitudes they need to care for people across a wide range of specialist and non-specialist practice settings. Written by a highly experienced team of mental health nursing experts, the book covers all the common mental health conditions nurses are likely to encounter in practice. It provides essential information on assessing for and identifying people experiencing mental illness, as well as how to provide appropriate responses, support, and referral across the numerous contexts in which nurses work. High quality evidence-based content developed specifically to meet the learning needs of students and novice clinicians in Australia and New Zealand. Describes the foundational principles and core mental health skills required by all nurses. Covers generalist health settings; content is relevant for nursing students across their curriculum.
