## **Trading on Sentiment** Richard L.

Peterson,2016-03-04 In his debut book on trading psychology **Inside the Investor's Brain** Richard Peterson demonstrated how managing emotions helps top investors outperform. Now in **Trading on Sentiment** he takes you inside the science of crowd psychology and demonstrates that not only do price patterns exist but the most predictable ones are rooted in our shared human nature. Peterson's team developed text analysis engines to mine data topics, beliefs, and emotions from social media. Based on that data they put together a market neutral social media based hedge fund that beat the S P 500 by more than twenty four percent through the 2008 financial crisis. In this groundbreaking guide he shows you how they did it and why it worked. Applying algorithms to social media data opened up an unprecedented world of insight into the elusive patterns of investor sentiment driving repeating market moves. Inside you gain a privileged look at the media content that moves investors along with time tested techniques to make the smart moves even when it doesn't feel right. This book digs

underneath technicals and fundamentals to explain the primary mover of market prices the global information flow and how investors react to it It provides the expert guidance you need to develop a competitive edge manage risk and overcome our sometimes flawed human nature Learn how traders are using sentiment analysis and statistical tools to extract value from media data in order to Foresee important price moves using an understanding of how investors process news Make more profitable investment decisions by identifying when prices are trending when trends are turning and when sharp market moves are likely to reverse Use media sentiment to improve value and momentum investing returns Avoid the pitfalls of unique price patterns found in commodities currencies and during speculative bubbles Trading on Sentiment deepens your understanding of markets and supplies you with the tools and techniques to beat global markets whether they're going up down or sideways *Intelligent Investing in Irrational Markets* Panos Mourdoukoutas, Christopher Bates, 2025-09-01
