Catchy Phrases For 2014

Ying Khai Liew

Catchy Phrases For 2014:

The 2019 Parliamentary Elections in India Subrata K. Mitra, Rekha Saxena, Pampa Mukherjee, 2022-06-16 This book presents a comprehensive overview of India's electoral democracy and political system. It provides an in-depth analysis of the 2019 parliamentary elections to explore three crucial facts of India's political life: the legitimacy of political competition as the only basis of power elections as the only legitimate basis of political competition and political parties as the only legitimate agency to conduct political competition. The book argues that the vitality and resilience of India's electoral democracy remain high owing to large mass participation in elections that are competitive and relatively free and fair. The volume includes key theoretical, empirical, and comparative perspectives on parties and elections from experts and covers all major political parties of India along with the performance of many representative regional parties. It discusses themes such as elections and party competition in India, ideology, interest, religion, and gender as they affect social mobilisation and political transaction, economic and political change, and multiparty democracy, the dynamics of the Muslim vote, fluctuating electoral fortunes, and electoral campaigns and role of social media. This book will be an essential read for scholars and researchers of political science, political sociology, election studies, Indian politics, South Asian politics, and South Asian studies. It will also interest those in politics, public policy, and governance, civil society organisations, media, and journalism, and the general reader.

Rationalising Constructive Trusts Ying Khai Liew, 2017-09-21 Constructive trusts significantly interfere with the rights of an apparent legal owner of property. This makes it necessary for their imposition to be properly explained and justified. Unfortunately, attempts to rationalise constructive trusts as a whole, as opposed to specific doctrines or particular aspects of constructive trusts, have been few and far between. *Rationalising Constructive Trusts* proposes a new structure for a coherent understanding of constructive trusts. By using a combination of conceptual tools, it provides answers to a number of crucial questions, for example: What are the ingredients of a constructive trust claim? What are the limits of constructive trusts? How can we rationalise the imposition of constructive trusts in particular situations? Why do judges exercise varying degrees of remedial discretion in different doctrines? From a wider perspective, the structured understanding helps us to appreciate the precise ambit and role of express constructive and resulting trusts.

Crash Course in Library Budgeting and Finance Leslie Edmonds Holt, 2016-08-22 Concise, informative, and well-indexed, this book helps readers get the big picture as well as the considerable number of details involved in managing the finances for a library. For all libraries, money is critical to decision making about technology, staffing, and collections. As a result, informed budgeting is critically important for any library to succeed.
