**Momentum Planner** Sophia Carlson, AI, 2025-03-04 Momentum Planner presents a novel approach to time management focusing on building sustained motivation and consistent action rather than just scheduling events. It introduces a calendar system designed to fuel ambition, emphasizing strategic planning, consistent action, and feedback loops. The book argues that typical calendars often fail because they don't foster the daily habits needed for progress. Did you know that people are more likely to achieve their goals when they break them into smaller, manageable tasks? Or that regular reviews and adjustments can significantly improve alignment with long-term objectives? The book guides readers through creating a personalized momentum-building calendar. Chapters explore goal-setting methodologies like SMART goals and OKRs, habit formation techniques, and progress tracking strategies. By integrating these elements, the book aims to create a cohesive planning system that aligns with individual needs and aspirations. What sets this book apart is its focus on building momentum moving beyond simple scheduling to create a dynamic system that adapts to evolving needs and keeps users motivated. The Momentum Planner draws upon research in behavioral psychology and management science to support its arguments. It begins with core concepts and systematically builds toward a comprehensive planning system incorporating practical applications and actionable exercises to empower readers to take control of their time and achieve their goals. Ultimately, the book provides a practical framework to build momentum toward long-term success.
