

## The Twins

Story by Andrew Frinkle

Twyla and Twila are twins.  
They used to be two years old.  
Now, they are twelve years old.  
Someday, they will be twenty years  
old.

Twain twisted his ankle.  
He felt a twinge of pain.  
He tried to twirl, and oh, no!  
He twisted his ankle twice!

**Evidence and Insights to Inform Early Years Practice** Anne Keary, Lucas Walsh, Janet Scull, Susanne Garvis, 2026-02-24 Despite widespread calls for evidence-based improvement in education, until recently little has been known about using research and other types of evidence to inform teaching and learning of young children, particularly in early childhood education and care settings and the first years of formal schooling. Considering the importance of evidence-informed practice in education, this book offers a timely and innovative exploration of the use of evidence in early years and how this translates to practice. Through rich case studies and reflections on a portfolio of qualitative, quantitative, and mixed method studies, the authors investigate tensions and constructive collaborative possibilities between research, practice, and policy. Chapters intersect with components of the Q Project's Quality Use of Research Evidence (QURE) Framework to provide a lens through which to examine and support evidence-informed practice in a range of diverse communities. The book highlights how evidence can be meaningfully integrated into early years provision to inform policy programmes and practice.
