exploit the commercial aspects of SM effective SM engagement strategy is needed to build conversations and fulfils the ranges of needs of different consumers Research shows consumers are interested in sharing tips relating to their stage in the cycle Furthermore consumers indicated that marketing messages can be perceived as an interruption to the natural consumer to consumer communication flow The research also distinguishes between propensities to engage with a brand and purchasing or WOM advocacy that might not be directly related Consequently many engagement barriers are created as a result of this misalignment between corporate assumptions and actual consumer engagement motivations that unnecessarily lead to loss of opportunities If identified and studied carefully corporates could adapt their digital communication strategies to fully harness SM potential and thereby monetise a brand fanbase The researcher has developed a number of strategic frameworks that could help marketers understand the dynamics of this complex ecosystem in order to align their goals with real life consumer expectations
