**Steve Backshall's Venom** Steve Backshall, 2017-09-21 An exciting look at how various animals use venom for survival. A wide variety of insects, reptiles and amphibians use toxins to subdue their prey or to stop becoming prey to another predator. Even some mammals and birds resort to poison as a means of securing a meal or deterring attack. From species such as the King Cobra, Lionfish, Fat tail Scorpion and Poison Dart frog to the diminutive but lethal Black Widow Spider. Venom takes a fascinating look at the different types of natural venoms. TV presenter Steve Backshall needs no introduction following his performances on TV series such as Deadly 60 and Lost Land of. On a tour of the world's continents he looks at over 60 of the most venomous creatures, describing their main characteristics and explaining how they administer their venom and what its effects are. Stunning colour photographs and exciting accounts of Steve's own encounters with some of these animals bring the world of natural venom alive.

**Adventures in Nature** Dawn Nelson, 2021-07-16 Through a mixture of original stories and traditional tales, Adventures in Nature offers an abundance of ways for families to connect with the earth. As our ancestors did before us, the book follows the seasons contained in the Wheel Of The Year with each entry focusing on a story that brings us closer to the natural world, accompanied by simple craft projects, activities and mindful moments. In our busy modern lives we have become increasingly disconnected from the world around us and stories are an age old way of re establishing that link, nurturing a love for the environment and embedding awareness and respect for the planet within our culture. This book allows you to discover your very own adventures in nature through story.

**Concise Butterfly and Moth Guide** Bloomsbury, 2014-10-02 This practical pocket field guide published in association with the Wildlife Trusts includes 150 butterfly and moth species from Britain and the near Continent. Each species account contains accurate artworks that show details to help readers differentiate between male and female butterflies, moths and caterpillars of varying species. A concise written account outlines further essential information such as size, description, habitat, flight times, distribution, foodplants and habits. The easy to follow layouts and illustrations aid quick identification and make this book an indispensable reference in the field as well as at home. It is compact enough to fit in the pocket yet filled with essential information for nature enthusiasts.
