The Whole-School Community Read Margaux DelGuidice-Calemmo, Jeannette Balantic, 2025-10-30 A comprehensive resource for librarians and teachers who want to implement a whole school community reading program in their schools

What Readers Do Beth Driscoll, 2024-02-21 Shining a spotlight on everyday readers of the 21st century Beth Driscoll explores how contemporary readers of Anglophone fiction interact with the book industry digital environments and each other. We live in an era when book clubs, bibliomemoirs, Bookstagram and BookTok are as valuable to some readers as solitary reading moments. The product of nearly two decades of qualitative research into readers and reading culture, *What Readers Do* examines reading through three dimensions: aesthetic, conduct, moral conduct, and self-care, to show how readers intertwine private and social behaviors and both reinforce and oppose the structures of capitalism. Analyzing reading as a post-digital practice that is a synthesis of both print and digital modes and on- and offline behaviors, Driscoll presents a methodology for studying readers that connects book history, literary studies, sociology, and actor network theory. Arguing for the vitality, agency, and creativity of readers, this book sheds light on how we read now and on how much more readers do than just read.

The Global Author Economy Azhar ul Haque Sario, 2025-10-31 The publishing world has changed forever and this book is the map you need to navigate it. This book is your complete guide to the global author economy. It begins with the past. You will learn how self-publishing is not new but the original form of publishing. We trace its history from ancient scribes to the modern digital age. Then the book provides a massive global market analysis. We dive deep into 15 different countries. This includes the Anglosphere titans: the USA, UK, Canada, and Australia. We explore European powerhouses like Germany, France, and Sweden. We also unlock the BRICS frontier: Brazil, India, and South Africa. Finally, we look at unique markets like Japan, China, Mexico, the UAE, and Nigeria. For each country, you get a practical breakdown. This includes market trends, top local companies, and essential copyright laws. The guide also covers the cutting edge of the industry. You will learn how to use AI for marketing and research. We explore the audiobook boom, subscription models, and direct-to-reader sales. The book explains new business theories. You will learn to be an authorpreneur. You will understand how to build a global-local strategy. To finish, we look to the future, predicting the trends that will shape the industry from 2025 to 2035. What makes this book different from other publishing guides? Most books are too limited. They focus on just one platform like Amazon or one market like the US. This book provides a truly global strategic perspective. It gives you the Global Local Nexus model, a unique framework for leveraging worldwide distribution platforms while applying targeted localized marketing to build a real connection with readers in different countries. It's not just a simple how-to manual. It is a comprehensive analysis that combines history, practical market data, emerging technology trends, and powerful business models. Other books may show you how to upload your file. This book teaches you how to think like a global CEO of your own writing business. It's the ultimate resource for building a resilient, diversified, and sustainable international writing career.
